

Home security

- All windows should be secured with anti-slide devices.
- Secure sliding glass doors with a lock or bar, or place a piece of wood or broom handle in the track.
- Move valuables so they cannot be seen from porch windows.
- Never leave a house key hidden outside your home.
- Fasten air conditioners units securely to the windowsill or window frame so they can't be removed from the outside.
- Mid and high-rise residents should release the front door only to visitors who positively identify themselves.
- Arrange for an unlisted telephone number.
- If you live off campus, do not put your name on the outside of your residence mailbox and do not leave notes on outside doors.
- Consider a bank safety deposit box or fire-proof safe for valuable documents and items.
