Chapman University
Physician Assistant Studies Program
Crean College of Health and Behavioral Sciences

Please list all **Patient Care Experience AND Healthcare Related Experience** hours in their respective sections on this form. **At least 1,000 hours of Patient Care Experience are required** for your application to be considered for admission. The work can be paid or voluntary. **There is no minimum hour requirement for Healthcare Related Experience hours.** This form must be completed in addition to your CASPA application's "Experiences" section.

For Chapman's Physician Assistant Studies Program application, **Patient Care Experience** is defined as direct interaction with patients in a clinical setting. This includes taking patient vitals and history, patient education, answering patient medical questions, medical record documentation, assisting in medical procedures, administering medication, etc. A list of acceptable patient care experiences can be found on our [website](#).

Other experience in the healthcare field should be included in the **Healthcare Related Experiences** section of the application. This includes scheduling appointments, managing payments and insurance, delivering patient food, cleaning patients and rooms, filling prescriptions, etc. **For positions with mixed duties (e.g., MA position with both front- and back-office responsibilities), please estimate the division of time and enter it into the two categories accordingly.**
