### Tuberculosis Screening Questionnaire to be Completed by Incoming Students

Please answer the following questions:

Have you ever had a positive TB skin test?  Yes  No

Have you ever had close contact with anyone who was sick with TB?  Yes  No

Were you born in one of the countries listed below and arrived in the U.S. within the past 5 years? (If yes, please CIRCLE the country)  Yes  No

Have you ever traveled\* to/in one or more of the countries listed below? (If yes, please CHECK the country/ies)  Yes  No

Have you ever been vaccinated with BCG?  Yes  No

\* The significance of the travel exposure should be discussed with a health care provider and evaluated.

Afghanistan	Cook Islands	Kenya	Niger	Syrian Arab Republic
Algeria	Côte d'Ivoire	Kiribati	Nigeria	Tajikistan
Angola	Croatia	Kuwait	Pakistan	Thailand
Argentina	Democratic People's Republic of Korea	Kyrgyzstan	Palau	The former Yugoslav Republic of Macedonia
Armenia	Democratic Republic of the Congo	Lao People's Democratic Republic	Panama	Timor-Leste
Azerbaijan	Djibouti	Latvia	Papua New Guinea	Togo
Bahrain	Dominican Republic	Lesotho	Paraguay	Tonga
Bangladesh	Ecuador	Liberia	Peru	Trinidad and Tobago
Belarus	El Salvador	Libyan Arab Jamahiriya	Philippines	Tunisia
Belize	Equatorial Guinea	Lithuania	Poland	Turkey
Benin	Eritrea	Madagascar	Portugal	Turkmenistan
Bhutan	Estonia	Malawi	Qatar	Tuvalu
Bolivia (Plurinational State of)	Ethiopia	Malaysia	Republic of Korea	Uganda
Bosnia and Herzegovina	French Polynesia	Maldives	Republic of Moldova	Ukraine
Botswana	Gabon	Mali	Romania	United Republic of Tanzania
Brazil	Gambia	Marshall Islands	Russian Federation	Uruguay
Brunei Darussalam	Georgia	Mauritania	Rwanda	Uzbekistan
Bulgaria	Ghana	Mauritius	Saint Vincent and the Grenadines	Vanuatu
Burkina Faso	Guam	Micronesia (Federated States of)	Sao Tome and Principe	Venezuela (Bolivarian Republic of)
Burundi	Guatemala	Mongolia	Senegal	Viet Nam
Cambodia	Guinea	Montenegro	Serbia	Yemen
Cameroon	Guinea-Bissau	Morocco	Seychelles	Zambia
Cape Verde	Guyana	Mozambique	Sierra Leone	Zimbabwe
Central African Republic	Haiti	Myanmar	Singapore	
Chad	Honduras	Namibia	Solomon Islands	
China	India	Nepal	Somalia	
Colombia	Indonesia	Nicaragua	South Africa	
Comoros	Iraq		Sri Lanka	
Congo	Japan		Sudan	
	Kazakhstan		Suriname	
			Swaziland

If the answer to all of the above questions is NO, no further testing or further action is required.

If the answer is YES to any of the above questions, Chapman University requires that your health care provider complete a tuberculosis risk assessment and appropriate testing prior to your enrollment at Chapman University. (See back of form).

## Tuberculosis (TB) Risk Assessment by Health Care Provider

1. Does the student have signs or symptoms of active tuberculosis disease? Yes                      No  
If No, proceed to 2 or 3. If Yes, proceed with additional evaluation to exclude active tuberculosis disease including tuberculin skin testing, chest x-ray, and sputum evaluation as indicated.

### 2. Tuberculin Skin Test (TST)

(TST result should be recorded as actual millimeters (mm) of induration, transverse diameter; if no induration, write "0". The TST interpretation should be based on mm of induration as well as risk factors.)

Date Given:                      Date Read:

Result: \_\_\_\_\_ mm of induration      \*\*Interpretation: positive      negative

OR

### 3. Interferon Gamma Release Assay (IGRA)

Date Obtained:                      (specify method)      QFT-G                      QFT                      GIT other\_\_\_\_\_

Result: Negative:                      Positive:                      Intermediate:

### 4. Chest x-ray: (Required if TST or IGRA is positive)

Date of chest x-ray:                      Result: normal:                      Abnormal:

#### **\*\*Interpretation guidelines**

##### **>5 mm is positive:**

- Recent close contacts of an individual with infectious TB
- Persons with fibrotic changes on a prior chest x-ray consistent with past TB disease
- Organ transplant recipients
- Immunosuppressed persons: taking > 15 mg/d of prednisone for > 1 month; taking a TNF- $\alpha$  antagonist
- Persons with HIV/AIDS

##### **>10 mm is positive:**

- Persons born in a high prevalence country or who resided in one for a significant\* amount of time
- History of illicit drug use
- Mycobacteriology laboratory personnel
- History of resident, worker or volunteer in high-risk congregate settings
- Persons with the following clinical conditions: silicosis, diabetes mellitus, chronic renal failure, leukemias and lymphomas, head, neck or lung cancer, low body weight (>10% below ideal), gastrectomy or intestinal bypass, chronic malabsorption syndromes

##### **>15 mm is positive:**

- Persons with no known risk factors for TB disease
