OVERVIEW

Chapman University engaged SSRS to conduct the 2022 wave of The Chapman University Survey on American Fears (CSAF). Chapman University initiated this nationwide poll on what strikes fear in Americans in 2014. The primary objective of this survey is to collect annual data on the fears, worries and concerns of Americans, the personal, behavioral and attitudinal characteristics related to those fears, and how those fears are associated with other attitudes and behaviors.

The CSAF is a project of the Earl Babbie Research Center in the Wilkinson College of Arts, Humanities, and Social Sciences at Chapman University. The Earl Babbie Research Center is dedicated to using a variety of social science research methods to examine critical social, behavioral, economic and environmental problems.

CSAF was conducted online via the SSRS Opinion Panel and invited adults age 18 and older to participate via the web. It included 1,020 participants and data collection was conducted from April 5 to 15, 2022.

This report provides information about the sampling procedures and the methods used to collect, process, and weight data for the 2022 wave of the CSAF.

SSRS PROFILE

SSRS is a full-service survey and market research firm managed by a core of dedicated professionals with advanced degrees in the social sciences, who partner with clients interested in conducting high-quality research. SSRS designs and implements research solutions for complex strategic, tactical, public opinion, and policy issues in the U.S. and in more than 40 countries worldwide. The SSRS team specializes in creative problem-solving and informed analysis to meet its clients' research goals. SSRS provides the complete set of analytical, administrative and management capabilities needed for successful project execution. In the industry, SSRS is renowned for its sophisticated sample designs and its experience with all facets of data collection, including those involving multimodal formats. SSRS also has extensive statistical and analytical capabilities for extracting important insights from the survey data and suggesting strategies based on those insights.

SAMPLE DESIGN: THE SSRS OPINION PANEL

SSRS Opinion Panel members are recruited randomly based on nationally representative ABS (Address Based Sample) design (including Hawaii and Alaska). Additionally, the SSRS Opinion Panel has recruited some hard-to-reach demographic groups via random-digit dialing (RDD) telephone sample.¹ ABS respondents are randomly sampled by Marketing Systems Group (MSG) through the U.S. Postal Service's Computerized Delivery Sequence (CDS), a regularly-updated listing of all known addresses in the U.S. For the Opinion Panel, known business addresses are excluded from the sample frame.

¹ Prior to July 2019, the SSRS Opinion Panel was recruited entirely from RDD sample.

The SSRS Opinion Panel is a multi-mode panel. Internet households participate via web while all non-internet households (including those who have internet but are unwilling to take surveys online) participate via phone. For the CSAF, all panelists participated via web by self-administering the survey. See the Weighting section of this report for details on the non-Internet Adjustment that was applied in order for the weighted data to be projectable to the full U.S. population, rather than only Internet users.

QUESTIONNAIRE DESIGN

Chapman University provided the survey instrument to SSRS. SSRS reviewed the survey instrument and provided feedback. Together, SSRS and the Chapman University team worked to finalize the questionnaire.

Upon final approval, SSRS formatted and programmed the survey for completion online. Additional steps were employed to ensure a quality experience in survey administration regardless of the device utilized by respondents, whether a desktop computer, tablet, or mobile device.

DATA COLLECTION

Survey Sampling

All sample members drawn for the CSAF were adult, English-language panelists. Sample drawn for the CSAF was stratified by age, gender, race and ethnicity, education, Census region, party identification, and preferred survey language to ensure adequate representation of each demographic group.

Survey Administration Procedures

Surveys conducted for the CSAF are self-administered web surveys. In appreciation for their participation, respondents from the SSRS Opinion Panel receive a modest incentive for participation (in the form of an electronic gift card). Depending on the field period, reminder emails are sent to panelists who do not complete the survey after being sent the initial invitation.

For the CSAF study, the survey administration schedule was as follows:

Touchpoint	Date
Soft launch invitation	4/5/2022
Full launch invitation	4/6/2022
Field Close	4/15/2022

A “soft launch” inviting a limited number of panelists to participate was conducted on April 5th. Soft launch data was checked to ensure functionality of the program. After checking soft launch data to ensure that all questionnaire content and skip patterns were correct, additional sample was released to ensure the final sample met the study goals.

The median length² of the CSAF survey was 15 minutes.

Panelists were emailed an invitation to complete the CSAF survey online. The email for each respondent included a unique passcode-embedded link. In appreciation for their participation, panelists received post-paid compensation in the form of an electronic gift card, sent via email immediately after completion of the survey.

In total, 2,302 panelists were sent email invitations with their own unique link to the survey. All respondents not responding to their first invitation received multiple reminder emails and panelists who had opted into receiving text messages from the SSRS Opinion Panel received text message reminders. The survey administration schedule was as follows:

Touchpoint	Date
Soft launch	4/5/2022
First Email Invitation	4/6/2022
First Email and Text Reminder	4/8/2022
Second Reminder	4/10/2022
Third Reminder	4/12/2022
Additional First Email Invitation	4/13/2022
Final Email and Text Reminder	4/14/2022
Field Close	4/15/2022

As a standard practice for SSRS Opinion Panel surveys, quality checks were incorporated into the survey. For CSAF, these included asking respondents to select a specific response when viewing a list of items. Respondents who failed the quality checks employed were not included in the final data set.

As standard practice on web surveys, respondents were allowed to skip any question they did not wish to answer; however, high rates of non-response can be correlated with poor data quality. Notably, 97% of respondents answered 100% of all survey questions, with no one completing less than 91% of the entire questionnaire.

N Sampled for Survey	N Completed Survey	Final N After Quality Control Removals ³
2,302	1,041	1,020

² The mean length of the survey was 17 minutes and the modal length was 13 minutes.

³ The N=21 cases were removed due failing two of three quality control questions that were embedded into the survey.

The final breakdown based on device used to complete the survey was as follows:

Device	N Completed Survey
Computer/Tablet	373
Smartphone	636
Uncategorized	11

COMPLETION RATE/RESPONSE RATE

Web-panel response rates are a product of (1) response rates to the original invitation to participate as a panelist and (2) the response rates, among panelists, to the invitation to participate in the study. The table, below, details the completion and response rates for this study.

Touchpoint	
Invited to Participate/Total Sample	2,302
Completed	1,020 ⁴
Survey Completion Rate	44%
AAPOR RR3	2% ⁵

DATA PROCESSING AND INTEGRATION

SSRS implemented several quality assurance procedures in data file preparation and processing. In addition to extensive testing of the web survey prior to the launching data collection, random data were generated to ensure that skip patterns were working correctly. After the soft launch, survey data were carefully checked for accuracy, completeness, and non-response to specific questions so that any issues could be identified and resolved prior to the full launch.

The data file programmer implemented a “data cleaning” procedure in which web survey skip patterns were created in order to ensure that all questions had the appropriate numbers of cases. This procedure involved a check of raw data by a program that consisted of instructions derived from the skip patterns designated on the questionnaire. The program confirmed that data were consistent with the definitions of codes and ranges and matched the appropriate bases of all questions.

WEIGHTING

This study, using sample selected from the SSRS Opinion Panel, was weighted to provide nationally representative and projectable estimates of the U.S. adult population 18 years of age and older.

⁴ Excludes cases removed for quality control reasons.

⁵ Product of the SSRS Opinion Panel recruitment rate(s) and the CSAF survey completion rate(s) across sample-sources.

The sample was weighted in stages. The first stage of the weighting was the application of a base weight to account for different probabilities of recruitment to the SSRS Opinion Panel. Next, a non-internet propensity score adjustment, which models non-Internet households that are excluded from an online panel, was applied. In the final stage of weighting, sample demographics were post-stratified to match population parameters.

Base Weight

The base weight was computed differently depending on whether the panelist was recruited from ABS or from the RDD sample.

The base weight for ABS recruits is the product of a sampling weight and a household size adjustment. The sampling weight accounts for selection probabilities of addresses across the 16 ABS strata and also the probability of selection of one adult in each sampled household.

The ABS base weight, BW_{ABS} , can be expressed as a function of the proportion of the ABS frame in stratum i , P_i , the proportion of the ABS sample that was pulled from stratum i , p_i and the number of adults in household j as follows.

$$BW_{ABS} = (P_i/p_i) \times AD_{ij}$$

The base weight for the RDD sample recruits is the original base weight assigned at the time of the original telephone interview.

The RDD base weight, BW_{Omni} can be expressed as a function of the size of the landline and cell phone sample frames (F_{LL} and F_{CELL}), the size of the landline and cell phone samples (S_{LL} and S_{CELL}), and the number of adults in each household AD as follows.⁶

$$BW_{Omni} = ((LL \times AD \times S_{LL}/F_{LL}) + (CP \times S_{CELL}/F_{CELL}) - (LL \times AD \times CP \times S_{LL} \times S_{CP}/(F_{LL} \times F_{CP})))^{-1}$$

Where $LL = 1$ if the respondent has a landline phone and $LL = 0$ otherwise and $CP = 1$ if the respondent has a cell phone and $CP = 0$ otherwise.

The base weights were standardized by recruitment source to produce the standardized base weight (SBW).

$$SBW = \begin{cases} BW_{Omni} \times n_{Omni} / \sum_{i \in OMNI} BW_{Omni}, & \text{cases recruited from SSRS Omnibus} \\ BW_{ABS} \times n_{ABS} / \sum_{i \in ABS} BW_{ABS}, & \text{cases recruited from ABS sample} \end{cases}$$

Where n_{Omni} is the number of interviews conducted from RDD recruited sample and n_{ABS} is the number of interviews conducted from ABS recruited sample.

⁶ Buskirk, T. D., & Best, J. (2012). Venn Diagrams, Probability 101 and Sampling Weights Computed for Dual Frame Telephone RDD Designs. *Journal of Statistics and Mathematics*, 15, 3696-3710.

Non-Internet Adjustment

In addition to the base weight, a non-Internet Adjustment (NIA) was made to the sample. For this adjustment, SSRS applies a propensity score to model non-Internet households so that estimates can be projectable to the full U.S. population and not just Internet users. Propensity scores were estimated by fitting a regression of internet status on a range of demographic and attitudinal covariates. Adjustments for each respondent are then calculated as the reciprocal of the estimated internet access propensity found from the model.

Raking

The final stage of weighting balanced the demographic profile of the sample to population benchmark distributions.⁷

Weighting was accomplished using SPSSINC RAKE, an SPSS extension module that simultaneously balances the distributions of all variables using the GENLOG procedure. The data were weighted to distributions of education, gender by age, gender by education, age by education, race/ethnicity, census region, population density, religion affiliation, Internet use frequency, political party identification, voter registration, and civic engagement.

The gender, age, education, race/ethnicity, and region benchmarks were derived from the 2021 Current Population Survey⁸ (CPS) data. The civic engagement benchmark was derived from the September 2019 CPS Volunteering and Civic Life Supplement data⁹. Lastly, the voter registration benchmark was derived from the 2021 Aristotle Voter Database.

Weights were trimmed at the 2nd and 98th percentiles to prevent individual interviews from having too much influence on the final results.

⁷ To handle missing data among some of the self-reported demographic variables we employ a technique called hot decking. Hot deck imputation replaces the missing values of a respondent randomly with another similar respondent without missing data. These are further determined by variables predictive of non-response that are present in the entire file. We use an SPSS macro detailed in 'Goodbye, Listwise Deletion: Presenting Hot Deck Imputation as an Easy and Effective Tool for Handling Missing Data' (Myers, 2011).

⁸ <https://www.census.gov/programs-surveys/cps.html>

⁹ Civically engaged respondents are defined as those who have volunteered in the past 12 months or who talk to their neighbors daily. https://www.census.gov/data/datasets/time-series/demo/cps/cps-supp_cps-repwgt/cps-volunteer.html

Margin of Sampling Error

Specialized sampling designs and post-data collection statistical adjustments require analysis procedures that reflect departures from simple random sampling. SSRS calculates the effects of these design features so that an appropriate adjustment can be incorporated into tests of statistical significance when using these data. The so-called "design effect" or *deff* represents the loss in statistical efficiency that results from a disproportionate sample design and systematic non-response. SSRS calculates the composite design effect for a sample of size *n*, with each case having a weight, *w*, as:¹⁰

$$deff = \frac{n \sum w^2}{(\sum w)^2}$$

The design effect for this survey was 1.73 overall.

The survey's margin of error is the largest 95% confidence interval for any estimated proportion based on the total sample -- one around 50%. For example, the margin of error for the total sample is ± 4.0 percentage points. This means that in 95 out of every 100 samples drawn using the same methodology, estimated proportions based on the entire sample will be no more than 4.0 percentage points away from their true values in the population. Margins of error for subgroups will be larger. It is important to remember that the sampling fluctuations captured in the margin of error are only one possible source of error in a survey estimate. Other sources, such as respondent selection bias, questionnaire wording, and reporting inaccuracy, may contribute additional error of greater or lesser magnitude.

DELIVERABLES

Final deliverables for this study were a weighted SPSS file, the final formatted questionnaire, and this methodology report.

For the final datafile, please note that when a respondent elected to skip a question they were coded as "1: Web blank." A codebook is provided below.

DATAFILE VARIABLES AND CODEBOOK

The following shows the name and description of each data variable and associated response categories provided in the SPSS file.

For all demographic data, aside from EDUCATION, EDUC, EMPLOY, and NEWINCOME, only sample-based data was used.

Variable Name	Variable Description
RESPID	respid
DeviceType	Device used for survey completion
Q1	Q1. How religious do you consider yourself to be?
Q2	Q2. How often do you attend religious services at a church, mosque, synagogue or other place of worship?
Q3	Q3. Which one statement comes closest to your personal beliefs about the Christian Bible?
Q4	Q4. How would you describe yourself politically?
Q5	Q5. Do you think of yourself as Republican, Democrat or Independent?
Q6	Q6. Who did you vote for in the 2020 Presidential election?
Q9a	Q9a. How often do you.... Read a local newspaper from your hometown?
Q9b	Q9b. How often do you.... Read a national newspaper such as USA Today, The Wall Street Journal, or The New York Times?
Q9c	Q9c. How often do you.... Read online news websites?
Q9d	Q9d. How often do you.... Watch the national nightly network news?
Q9e	Q9e. How often do you.... Watch Fox News?
Q9f	Q9f. How often do you.... Watch CNN?
Q9g	Q9g. How often do you.... Watch MSNBC?
Q9h	Q9h. How often do you.... Watch the local TV news to learn about your area?
Q9i	Q9i. How often do you.... Watch daytime talk shows?
Q9j	Q9j. How often do you.... Listen to a talk radio show that discusses politics?
Q9k	Q9k. How often do you.... Get news from social media?
Q10a	Q10a. How afraid are you of the following? Becoming seriously ill?
Q10b	Q10b. How afraid are you of the following? People I love becoming seriously ill?
Q10c	Q10c. How afraid are you of the following? Dying?
Q10d	Q10d. How afraid are you of the following? People I love dying?
Q11a	Q11a. How afraid are you of the following: Air pollution?
Q11b	Q11b. How afraid are you of the following: Pollution of drinking water?
Q11c	Q11c. How afraid are you of the following: Pollution of oceans, rivers and lakes?
Q11d	Q11d. How afraid are you of the following: Extinction of plant and animal species?
Q11e	Q11e. How afraid are you of the following: Oil spills?
Q11f	Q11f. How afraid are you of the following: Global warming and climate change?
Q13a	Q13a. How afraid are you of the following: Not having enough money for the future?

Q13b	Q13b. How afraid are you of the following: Not being able to pay off the college debt of myself or a family member?
Q13c	Q13c. How afraid are you of the following: Not having enough money to pay my rent or mortgage?
Q13d	Q13d. How afraid are you of the following: Being unemployed?
Q13e	Q13e. How afraid are you of the following: High medical bills?
Q13f	Q13f. How afraid are you of the following: Catching influenza (the seasonal flu)?
Q13g	Q13g. How afraid are you of the following: Catching the coronavirus (COVID-19)?
Q14a	Q14a. How afraid are you of the following: Computers replacing people in the workforce?
Q14b	Q14b. How afraid are you of the following: Technology that I don't understand?
Q14c	Q14c. How afraid are you of the following: Cyber-terrorism?
Q14d	Q14d. How afraid are you of the following: Corporate tracking of personal data?
Q14e	Q14e. How afraid are you of the following: Government tracking of personal data?
q15a	Q15a. How afraid are you of the following events: A devastating earthquake?
q15b	Q15b. How afraid are you of the following events: A devastating hurricane?
q15c	Q15c. How afraid are you of the following events: A devastating tornado?
q15d	Q15d. How afraid are you of the following events: A devastating flood?
q15e	Q15e. How afraid are you of the following events: A devastating blizzard/Winter storm?
q15f	Q15f. How afraid are you of the following events: A devastating drought?
q15g	Q15g. How afraid are you of the following events: A devastating wildfire?
q15h	Q15h. How afraid are you of the following events: A large volcanic eruption?
q15i	Q15i. How afraid are you of the following events: A new pandemic or a major epidemic?
q15j	Q15j. How afraid are you of the following events: Climate change impacting where I live?
q15k	Q15k. How afraid are you of the following events: A devastating natural disaster where I live?
q15aa	Q15aa. How afraid are you of the following events: The collapse of the electrical grid?
q15ab	Q15ab. How afraid are you of the following events: A nuclear accident/meltdown?
q15ac	Q15ac. How afraid are you of the following events: Economic/financial collapse?
q15ad	Q15ad. How afraid are you of the following events: Widespread civil unrest?
q15ae	Q15ae. How afraid are you of the following events: The US becoming involved in another world war?
q15af	Q15af. How afraid are you of the following events: Whites no longer being the majority in the US?
q15ag	Q15ag. How afraid are you of the following events: Illegal immigration?
q15ah	Q15ah. How afraid are you of the following events: Violent overthrow of the U.S. government?
q15ai	Q15ai. How afraid are you of the following events: Widespread voter fraud?

q15aj	Q15aj. How afraid are you of the following events: Biological warfare?
q15ak	Q15ak. How afraid are you of the following events: A terrorist attack?
q15al	Q15al. How afraid are you of the following events: North Korea using nuclear weapons?
q15am	Q15am. How afraid are you of the following events: Iran using nuclear weapons?
q15an	Q15an. How afraid are you of the following events: Russia using nuclear weapons?
Q16a	Q16a. How afraid are you of the following: Blood?
Q16b	Q16b. How afraid are you of the following: Needles?
Q16c	Q16c. How afraid are you of the following: Insects/arachnids (spiders, bees, etc.)?
Q16d	Q16d. How afraid are you of the following: Reptiles (snakes, lizards, etc.)?
Q16e	Q16e. How afraid are you of the following: Animals (dogs, rats, etc.)?
Q16f	Q16f. How afraid are you of the following: Sharks?
Q16g	Q16g. How afraid are you of the following: Germs?
Q16h	Q16h. How afraid are you of the following: Deep lakes and oceans?
Q16i	Q16i. How afraid are you of the following: Flying?
Q16j	Q16j. How afraid are you of the following: Ghosts?
Q16k	Q16k. How afraid are you of the following: Heights?
Q16l	Q16l. How afraid are you of the following: Public speaking?
Q16m	Q16m. How afraid are you of the following: Small, enclosed spaces?
Q16n	Q16n. How afraid are you of the following: Zombies?
Q16o	Q16o. How afraid are you of the following: Strangers?
Q16p	Q16p. How afraid are you of the following: Walking alone at night?
Q17a	Q17a. How afraid are you of being the victim of the following crimes: Mugging?
Q17b	Q17b. How afraid are you of being the victim of the following crimes: Stalking?
Q17c	Q17c. How afraid are you of being the victim of the following crimes: Murder by a stranger?
Q17d	Q17d. How afraid are you of being the victim of the following crimes: Murder by someone you know?
Q17e	Q17e. How afraid are you of being the victim of the following crimes: Being hit by a drunk driver?
Q17f	Q17f. How afraid are you of being the victim of the following crimes: Police brutality?
Q17g	Q17g. How afraid are you of being the victim of the following crimes: Sexual assault by a stranger?
Q17h	Q17h. How afraid are you of being the victim of the following crimes: Sexual assault by someone you know?
Q17i	Q17i. How afraid are you of being the victim of the following crimes: Racial/hate crime?
Q17j	Q17j. How afraid are you of being the victim of the following crimes: Random/mass shooting?
Q17k	Q17k. How afraid are you of being the victim of the following crimes: Break-ins?
Q17l	Q17l. How afraid are you of being the victim of the following crimes: Theft of property?

Q17m	Q17m. How afraid are you of being the victim of the following crimes: Gang violence?
Q17n	Q17n. How afraid are you of being the victim of the following crimes: Abduction/Kidnapping?
Q17o	Q17o. How afraid are you of being the victim of the following crimes: Identity theft?
Q17p	Q17p. How afraid are you of being the victim of the following crimes: Credit card fraud?
Q17q	Q17q. How afraid are you of being the victim of the following crimes: Financial fraud (such as a Ponzi Scheme, embezzlement, etc.)?
Q17r	Q17r. How afraid are you of being the victim of the following crimes: Terrorism?
Q18a	Q18a. How afraid are you of the following: Antifa?
Q18b	Q18b. How afraid are you of the following: White supremacists?
Q18c	Q18c. How afraid are you of the following: Black Lives Matter (BLM)?
Q18d	Q18d. How afraid are you of the following: The Proud Boys?
Q18e	Q18e. How afraid are you of the following: Immigrants?
Q18f	Q18f. How afraid are you of the following: Muslims?
Q18g	Q18g. How afraid are you of the following: Right wing extremists?
Q18h	Q18h. How afraid are you of the following: Left wing extremists?
Q19a	Q19a. How afraid are you of the following: Government use of drones within the U.S.?
Q19b	Q19b. How afraid are you of the following: Corrupt government officials?
Q19c	Q19c. How afraid are you of the following: Government restrictions on firearms and ammunition?
Q20a	Q20a. Please indicate your level of agreement with the following statements. I support the Black Lives Matter (BLM) movement.
Q20b	Q20b. Please indicate your level of agreement with the following statements. Local governments should enact curfews during protests.
Q20c	Q20c. Please indicate your level of agreement with the following statements. The National Guard should be called in to cities to stop protests when needed.
Q20d	Q20d. Please indicate your level of agreement with the following statements. Our nation needs to reform the entire system of law enforcement.
Q20e	Q20e. Please indicate your level of agreement with the following statements. We should defund the police.
q22a	Q22a. Please indicate your level of agreement with the following statements. Overall, the Black Lives Matter (BLM) movement has been bad for the United States.
q22b	Q22b. Please indicate your level of agreement with the following statements. A serious barrier to health race relations in the United States is that white people become defensive when confronted with information about racial injustice.
q22c	Q22c. Please indicate your level of agreement with the following statements. Generations of slavery and discrimination have created conditions that make it difficult for black people to work their way out of the lower class.

q22d	Q22d. Please indicate your level of agreement with the following statements. Government officials usually pay more attention to a request or complaint from a white person than from a black person.
q22e	Q22e. Please indicate your level of agreement with the following statements. Over the past few years, black people have gotten less than they deserve.
q22f	Q22f. Please indicate your level of agreement with the following statements. The norms of white supremacy do not have much influence in the United States.
q23a	Q23a. Please indicate your level of agreement with the following statements. An emergency supply kit improves the chance of surviving a natural or manmade disaster.
q23b	Q23b. Please indicate your level of agreement with the following statements. I will experience a significant natural or manmade disaster in the near future.
q23c	Q23c. Please indicate your level of agreement with the following statements. I have not done enough to prepare for disasters.
q23d	Q23d. Please indicate your level of agreement with the following statements. I know how to prepare for disasters.
q23e	Q23e. Please indicate your level of agreement with the following statements. Natural disasters in my area are capable of seriously harming or damaging me or my property.
q23h	Q23h. Please indicate your level of agreement with the following statements. Over the past year, I have been impacted by natural disasters or extreme weather in my area.
q23i	Q23i. Please indicate your level of agreement with the following statements. Because of natural disasters or extreme weather I have experienced, I'm more concerned with disaster preparedness.
q23j	Q23j. Please indicate your level of agreement with the following statements. Because of climate change, I am more concerned with disaster preparedness.
q24	Q24. Do you have a disability or a health condition that might affect your ability to prepare for a disaster?
q25	Q25. Does someone in your household have a disability or a health condition that might affect their ability to prepare for a disaster?
q26a	Q26a. Please indicate your level of agreement with the following statements. The world as we know it will end within my lifetime.
q26b	Q26b. Please indicate your level of agreement with the following statements. The world as we know it will end as outlined in the Bible.
q26c	Q26c. Please indicate your level of agreement with the following statements. The world as we know it will end due to a world war or nuclear war.
q26d	Q26d. Please indicate your level of agreement with the following statements. The world as we know it will end due to a manmade environmental disaster or climate change.
q26e	Q26e. Please indicate your level of agreement with the following statements. The world as we know it will end due to a natural disaster (such as a comet strike, massive volcanic explosion, etc.).
q28a	Q28a. Please indicate your level of agreement with the following statements. Climate change is causing more frequent and severe floods.

q28b	Q28b. Please indicate your level of agreement with the following statements. Climate change is causing more frequent and severe wildfires.
q28c	Q28c. Please indicate your level of agreement with the following statements. Climate change is causing more frequent and severe droughts.
q28d	Q28d. Please indicate your level of agreement with the following statements. Climate change is causing more frequent and severe hurricanes.
q29	Q29. Do you have a disaster or emergency supply kit in your household, containing supplies such as food, water and medical supplies?
q30	Q30. Have you or anyone in your household put together a plan for what you would do in a natural disaster or emergency such as a fire in your home?
q31	Q31. Have you or anyone in your household put together a plan for what you would do with your pet(s) in a natural disaster or emergency such as a fire in your home?
q32	Q32. Have you or anyone in your household backed up and/or stored personal, medical and financial records in a safe accessible place in case of natural disaster or emergency such as fire in your home?
q27a	Q27a. Please indicate your level of agreement with the following statements. I have lost friendships because of COVID-19.
q27b	Q27b. Please indicate your level of agreement with the following statements. I have spent more time alone because of COVID-19.
q27c	Q27c. Please indicate your level of agreement with the following statements. I have had arguments with friends or family because of COVID-19.
q27d	Q27d. Please indicate your level of agreement with the following statements. I have done more to prepare my household for emergencies and disasters because of COVID-19.
Q33a	Q33a. Please indicate your level of agreement with the following statements. Donald Trump is to blame for the violent events that occurred on January 6th, 2021.
Q33b	Q33b. Please indicate your level of agreement with the following statements. Joseph Biden was the legitimate winner of the 2020 U.S. presidential election.
Q33c	Q33c. Please indicate your level of agreement with the following statements. Because of the widespread election fraud, we'll never know who won the 2020 presidential election.
Q33d	Q33d. Please indicate your level of agreement with the following statements. The protestors who attacked the U.S. Capitol on January 6th, 2021 were patriots.
Q33g	Q33g. Please indicate your level of agreement with the following statements. We need new voting laws because there is too much voter fraud.
q21	Q21. With which gender identity do you identify the most?
int5	INT5. About how often do you use the internet?
Z8	Z8. What is the highest level of school you have completed or the highest degree you have received?
Z8A	Z-8a. How many semesters did you complete?
EDUCATION	Combined EDUCATION from Z8 and Z8A
EDUC	Recoded education from Z8
z4	Z4. Currently, are you yourself employed full time, part time, or not at all?

z5	Z5. Would you say you are....?
employ	Employment Status from survey
z9	Z9. What is your total annual household income from all sources, and before taxes?
z9a	Z9a. Could you say if your total annual household income falls into one of these broader categories?
z9b	Z9b. Would that be:
newincome	Recoded income from Z9, Z9a, and Z9b
voter	VOTER. Are you registered to vote at your presidential address, or not?
pAgeFinal	Age collapsed (PAGE1 + PAGE2)
pGender	Gender
pRace	Race
pRegion	Census Region
pMstatus	Marital Status
pAdults	# of Adults in HH
pParent	Parent of child in HH
pAge1	Numeric age
pAge2	Age for those refusing to give a number
pReligion	Religion
LENGTH	Length of survey (in minutes)
weight1_trim	Final weight - 2% trimming

QUESTIONNAIRE

Q1. How religious do you consider yourself to be? *(Please select one.)*

- 1 Not at all religious
- 2 Not too religious
- 3 Somewhat religious
- 4 Very religious
- 99 Web Blank

Q2. How often do you attend religious services at a church, mosque, synagogue or other place of worship? *(Please select one.)*

- 1 Never
- 2 Only on special occasions (i.e., weddings, funerals, holidays)
- 3 Less than once a year
- 4 Once or twice a year
- 5 Several times a year
- 6 Once a month
- 7 2-3 times a month
- 8 Weekly
- 9 Several times a week
- 99 Web Blank

[PN: ROTATE CODES 1-4/4-1]

Q3. Which one statement comes closest to your personal beliefs about the Christian Bible? *(Please select one.)*

- 1 The Bible means exactly what it says. It should be taken literally, word-for-word, on all subjects.
