## OVERVIEW

Chapman University engaged SSRS to conduct the 2020/2021<sup>1</sup> wave of The Chapman University Survey on American Fears (CSAF). Chapman University initiated this nationwide poll on what strikes fear in Americans in 2014. The primary objective of this survey is to collect annual data on the fears, worries and concerns of Americans, the personal, behavioral and attitudinal characteristics related to those fears, and how those fears are associated with other attitudes and behaviors.

The CSAF is a project of the Earl Babbie Research Center in the Wilkinson College of Arts, Humanities, and Social Sciences at Chapman University. The Earl Babbie Research Center is dedicated to using a variety of social science research methods to examine critical social, behavioral, economic and environmental problems.

CSAF was conducted online via the SSRS Opinion Panel and invited adults age 18 and older to participate via the web. It included 1,035 participants and data collection was conducted from January 5 to 15, 2021.

This report provides information about the sampling procedures and the methods used to collect, process, and weight data for the 2020/2021 wave of the CSAF.

## SSRS PROFILE

SSRS is a full-service survey and market research firm managed by a core of dedicated professionals with advanced degrees in the social sciences. SSRS designs and implements research solutions for complex strategic, tactical, public opinion, and policy issues in the U.S. and in more than 40 countries worldwide. The SSRS team specializes in creative problem-solving and informed analysis to meet its clients' research goals. SSRS provides the complete set of analytical, administrative and management capabilities needed for successful project execution. We partner with clients interested in conducting high-quality research. In the industry, SSRS is renowned for its sophisticated sample designs and its experience with all facets of data collection, including those involving multimodal formats. SSRS also has extensive statistical and analytical capabilities for extracting important insights from the survey data and suggesting strategies based on those insights.

## QUESTIONNAIRE DESIGN

Chapman University provided the survey instrument to SSRS. SSRS reviewed the survey instrument and provided feedback. Together, SSRS and the Chapman University team worked to finalize the questionnaire.

Upon final approval, SSRS formatted and programmed the survey for completion online. Additional steps were employed to ensure a quality experience in survey administration regardless of the device utilized by respondents, whether a desktop computer, tablet or phone.

---

<sup>1</sup> Since the survey was fielded at the start of 2021, we have used 2020/2021 in the labeling.

# SAMPLE DESIGN: THE SSRS OPINION PANEL

SSRS Opinion Panel members are recruited randomly based on nationally representative ABS (Address Based Sample) design (including Hawaii and Alaska). Additionally, we recruit hard-to-reach demographic groups via our Omnibus survey platform.<sup>2</sup> The SSRS Omnibus survey is a nationally representative (including Hawaii and Alaska) bilingual telephone survey designed to meet standards of quality associated with custom research studies. The SSRS Omnibus completes more than 50,000 surveys annually with 70% cell allocation.

The advantage of this recruiting design is that it relies on a high-quality ABS design that yields a higher response rate. Additionally, it leverages our Omnibus platform to ensure adequate representation of typically under-represented groups in public opinion polls such as Hispanics, African Americans, lower educated, or lower income population.

ABS respondents are randomly sampled by MSG through the U.S. Postal Service’s Computerized Delivery Sequence (CDS), a regularly-updated listing of all known addresses in the U.S. For the Opinion Panel, known business addresses are excluded from the sample frame.

## DATA COLLECTION

### Survey Sampling

All sample members drawn for the CSAF were adult, English-language panelists. Sample drawn for the CSAF was stratified by age, gender, race and ethnicity, education, region, and party identification to ensure adequate representation of each.

### Survey Administration Procedures

Surveys conducted using the SSRS Opinion Panel are self-administered web surveys. In appreciation for their participation, panelists receive a modest incentive for participation (in the form of an electronic gift card). Depending on the field period, reminder emails are sent to panelists who do not complete the survey after being sent the initial invitation.

For the CSAF study, the survey administration schedule was as follows:

Touchpoint	Date
Soft launch invitation	1/5/2021
Full launch invitation	1/6/2021
Field Close	1/15/2021

---

<sup>2</sup> Prior to July 2019, the SSRS Opinion Panel was recruited entirely from the SSRS Omnibus.

A “soft launch” inviting a limited number of panelists to participate was conducted on January 5<sup>th</sup>. After checking soft launch data to ensure that all questionnaire content and skip patterns were correct, additional sample was released to ensure the final sample met the study goals.

The median length<sup>3</sup> of the CSAF survey was 22 minutes.

Panelists were emailed an invitation to complete the CSAF survey online. The email for each respondent included a unique passcode-embedded link. In appreciation for their participation, panelists received a seven-dollar incentive (in the form of an electronic gift card). All respondents not responding to their first invitation received a reminder email on January 8<sup>th</sup>. Another reminder email was sent on January 11<sup>th</sup> to selected respondents in underrepresented demographics. Another round of reminders was sent to non-responders via text message on January 13<sup>th</sup> (panelists who had not opted into receive texts messages from the SSRS Opinion Panel were sent email reminders instead). Lastly, on January 14<sup>th</sup> new sample was drawn and sent email invitations to meet final study goals.

As a standard practice for SSRS Opinion Panel surveys, quality checks were incorporated into the survey. For CSAF, these included asking respondents to select a specific response when viewing a list of items. Respondents who failed the quality checks employed were not included in the final data set.

As standard practice on web surveys, respondents were allowed to skip any question they did not wish to answer; however, high rates of non-response can be correlated with poor data quality. Notably, 97% of respondents answered 100% of all survey questions, with no one completing less than 94% of the entire questionnaire.

<b>N Sampled for Survey</b>	<b>N Completed Survey</b>	<b>Final N After Quality Control Removals<sup>4</sup></b>
2,019	1,067	1,035

The final breakdown based on device used to complete the survey was as follows:

<b>Device</b>	<b>N Completed Survey</b>
Computer/Tablet	453
Smartphone	572
Uncategorized	10

<sup>3</sup> The mean length of the survey was 24 minutes and the modal length was 27 minutes.

<sup>4</sup> The N=32 cases were removed due failing two of three quality control questions that were embedded into the survey (n=27), speeding (i.e., surveys completed in less than 30% of the median LOI, n=4), and answering less than 90% of the survey questions (n=1).

# COMPLETION RATE/RESPONSE RATE

Web-panel response rates are a product of (1) response rates to the original invitation to participate as a panelist; (2) the completion rate, among panelists, with the invitation to participate in the study. Table 2 details the completion and response rates for this study.

**Table 2: Completion Rate/Response Rate:**

Touchpoint	
Invited to Participate/Total Sample	2,019
Completed	1,035 <sup>5</sup>
Survey Completion Rate	51%
Composite Response Rate	2% <sup>6</sup>

# DATA PROCESSING AND INTEGRATION

SSRS implemented several quality assurance procedures in data file preparation and processing. In addition to extensive testing of the web survey prior to the launching data collection, random data were generated to ensure that skip patterns were working correctly. After the soft launch, survey data were carefully checked for accuracy, completeness, and non-response to specific questions so that any issues could be identified and resolved prior to the full launch.

The data file programmer implemented a “data cleaning” procedure in which web survey skip patterns were created in order to ensure that all questions had the appropriate numbers of cases. This procedure involved a check of raw data by a program that consisted of instructions derived from the skip patterns designated on the questionnaire. The program confirmed that data were consistent with the definitions of codes and ranges and matched the appropriate bases of all questions. The CSAF survey included 10 conditional questions requiring skip logic.

<sup>5</sup> Excludes cases removed for quality control reasons.

<sup>6</sup> Product of the SSRS Opinion Panel recruitment response rate and the CSAF survey completion rate.

## WEIGHTING

This study, using sample selected from the SSRS Opinion Panel, was weighted to provide nationally representative and projectable estimates of the U.S. adult population 18 years of age and older.

The sample was weighted in stages. The first stage of the weighting was the application of a base weight to account for different probabilities of recruitment to the SSRS Opinion Panel. Next, a non-internet propensity score adjustment, which models non-Internet households that are excluded from an online panel, was applied. In the final stage of weighting sample demographics were post-stratified to match population parameters.

### Base Weight

The base weight was computed differently depending on whether the panelist was recruited from ABS or from the Omnibus.

The base weight for ABS recruits is the product of a sampling weight and a household size adjustment. The sampling weight accounts for selection probabilities of addresses across the 16 ABS strata and also the probability of selection of one adult in each sampled household.

The ABS base weight,  $BW_{ABS}$ , can be expressed as a function of the proportion of the ABS frame in stratum  $i$ ,  $P_i$ , the proportion of the ABS sample that was pulled from stratum  $i$ ,  $p_i$  and the number of adults in household  $j$  as follows.

$$BW_{ABS} = (P_i/p_i) \times AD_{ij}$$

The base weight for the Omnibus recruits is the original base weight assigned at the time of the original Omnibus interview.

The Omnibus base weight,  $BW_{Omnibus}$  can be expressed as a function of the size of the landline and cell phone sample frames ( $F_{LL}$  and  $F_{CELL}$ ), the size of the landline and cell phone samples ( $S_{LL}$  and  $S_{CELL}$ ), and the number of adults in each household  $AD$  as follows.<sup>7</sup>

$$BW_{Omnibus} = ((LL \times AD \times S_{LL}/F_{LL}) + (CP \times S_{CELL}/F_{CELL}) - (LL \times AD \times CP \times S_{LL} \times S_{CP}/(F_{LL} \times F_{CP})))^{-1}$$

Where  $LL = 1$  if the respondent has a landline phone and  $LL = 0$  otherwise and  $CP = 1$  if the respondent has a cell phone and  $CP = 0$  otherwise.

The base weights were standardized by recruitment source to produce the standardized base weight (SBW).

$$SBW = \begin{cases} BW_{Omnibus} \times n_{Omnibus} / \sum_{i \in OMNIBUS} BW_{Omnibus}, & \text{cases recruited from SSRS Omnibus} \\ BW_{ABS} \times n_{ABS} / \sum_{i \in ABS} BW_{ABS}, & \text{cases recruited from ABS sample} \end{cases}$$

Where  $n_{Omni}$  is the number of interviews conducted from Omni recruited sample and  $n_{ABS}$  is the number of interviews conducted from ABS recruited sample.

## Raking

The final stage of weighting balanced the demographic profile of the sample to target population parameters.

To handle missing data among some of the self-reported demographic variables we employ a technique called hot decking. Hot deck imputation replaces the missing values of a respondent randomly with another similar respondent without missing data. These are further determined by variables predictive of non-response that are present in the entire file. We use an SPSS macro detailed in 'Goodbye, Listwise Deletion: Presenting Hot Deck Imputation as an Easy and Effective Tool for Handling Missing Data' (Myers, 2011).

Weighting was accomplished using SPSSINC RAKE, an SPSS extension module that simultaneously balances the distributions of all variables using the GENLOG procedure. The data were weighted to distributions of gender by age, gender by education, age by education, race/ethnicity, census region, civic engagement, and population density.

The gender, age, education, race/ethnicity and region benchmarks were derived from 2019 Current Population Survey<sup>8</sup> (CPS) data. The civic engagement benchmark was derived from September 2017 CPS Volunteering and Civic Life Supplement data<sup>9</sup>.

Weights were trimmed at the 2nd and 98th percentiles to prevent individual interviews from having too much influence on the final results.

## Margin of Sampling Error

Specialized sampling designs and post-data collection statistical adjustments require analysis procedures that reflect departures from simple random sampling. SSRS calculates the effects of these design features so that an appropriate adjustment can be incorporated into tests of statistical significance when using these data. The so-called "design effect" or *deff* represents the loss in statistical efficiency that results from a complex sample designs and systematic non-response. SSRS calculates the composite design effect for a sample of size  $n$ , with each case having a weight,  $w$ , as:

$$deff = \frac{n \sum w^2}{(\sum w)^2}^{10}$$

<sup>8</sup> Sarah Flood, Miriam King, Steven Ruggles, and J. Robert Warren. Integrated Public Use Microdata Series, Current Population Survey: Version 7.0. [dataset]. Minneapolis: University of Minnesota, 2019. <https://doi.org/10.18128/D030.V5.0>.

<sup>9</sup> Civically engaged respondents are defined as those who have volunteered in the past 12 months or who talk to their neighbors daily. <https://www.census.gov/programs-surveys/cps/about/supplemental-surveys.html>

<sup>10</sup> Kish, L. (1992). Weighting for Unequal Pi. *Journal of Official Statistics*, Vol. 8, No.2, 1992, pp. 183-200.

The design effect for this survey was 1.66 overall.

The survey's margin of error is the largest 95% confidence interval for any estimated proportion based on the total sample -- one around 50%. For example, the margin of error for the total sample is  $\pm 3.9$  percentage points. This means that in 95 out of every 100 samples using the same methodology, estimated proportions based on the entire sample will be no more than 3.9 percentage points away from their true values in the population. It is important to remember that sampling fluctuations are only one possible source of error in a survey estimate. Other sources, such as measurement error, may contribute additional error of greater or lesser magnitude.

## **DELIVERABLES**

Final deliverables for this study were a weighted SPSS file, the final formatted questionnaire, a memo on findings in the data, and this methodology report.

For the final datafile, please note that when a respondent elected to skip a question they were coded as "1: Web blank." A codebook is provided below.

## DATAFILE VARIABLES AND CODEBOOK

The following shows the name and description of each data variable and associated response categories provided in the SPSS file.

For all demographic data, aside from EDUC, EDUCATION2, EMPLOY, and NEWINCOME, only sample-based data was used.

Variable Name	Variable Description
RESPID	respid
Q1	Q1. How religious do you consider yourself to be?
Q2	Q2. How often do you attend religious services at a church, mosque, synagogue or other place of worship?
Q3	Q3. Which one statement comes closest to your personal beliefs about the Christian Bible?
Q4	Q4. How would you describe yourself politically?
Q5	Q5. Do you think of yourself as Republican, Democrat or Independent?
Q6	Q6. Who did you vote for in the 2020 Presidential election?
Q9a	Q9a. How often do you.... Read a local newspaper from your hometown (in print or the digital version)?
Q9b	Q9b. How often do you.... Read a national newspaper such as USA Today, The Wall Street Journal, or The New York Times (in print or the digital version, app, etc.)?
Q9c	Q9c. How often do you.... Read online news websites (such as Yahoo News or Google)?
Q9d	Q9d. How often do you.... Watch the national nightly network news (such as World News Tonight, CBS Evening News)?
Q9e	Q9e. How often do you.... Watch Fox News?
Q9f	Q9f. How often do you.... Watch CNN?
Q9g	Q9g. How often do you.... Watch MSNBC?
Q9h	Q9h. How often do you.... Watch the local TV news to learn about your area?
Q9i	Q9i. How often do you.... Watch daytime talk shows such as The Ellen DeGeneres Show or The View?
Q9j	Q9j. How often do you.... Listen to a talk radio show that discusses politics?
Q9k	Q9k. How often do you.... Get news from social media (e.g., Twitter, Facebook)?
Q10a	Q10a. How afraid are you of the following: Becoming seriously ill?
Q10b	Q10b. How afraid are you of the following: People I love becoming seriously ill?
Q10c	Q10c. How afraid are you of the following: Dying?
Q10d	Q10d. How afraid are you of the following: People I love dying?
Q11a	Q11a. How many days during the past 30 days would you say.... Your physical health was not good?
Q11b	Q11b. How many days during the past 30 days would you say.... Your mental health was not good?
Q11c	Q11c. How many days during the past 30 days would you say.... Physical pain made it difficult to perform usual activities?

Q11d	Q11d. How many days during the past 30 days would you say.... You felt sad, blue, or depressed?
Q11e	Q11e. How many days during the past 30 days would you say.... You felt very healthy and full of energy?
Q11f	Q11f. How many days during the past 30 days would you say.... You have worried that you have contracted the coronavirus (COVID-19)?
Q11g	Q11g. How many days during the past 30 days would you say.... You have worried that a loved one has contracted the coronavirus (COVID-19)?
Q13a	Q13a. How afraid are you of the following: Air pollution?
Q13b	Q13b. How afraid are you of the following: Pollution of drinking water?
Q13c	Q13c. How afraid are you of the following: Pollution of oceans, rivers and lakes?
Q13d	Q13d. How afraid are you of the following: Extinction of plant and animal species?
Q13e	Q13e. How afraid are you of the following: Oil spills?
Q13f	Q13f. How afraid are you of the following: Global warming and climate change?
Q14a	Q14a. How afraid are you of the following: Not having enough money for the future?
Q14b	Q14b. How afraid are you of the following: Not being able to pay off the college debt of myself or a family member?
Q14c	Q14c. How afraid are you of the following: Not having enough money to pay my rent or mortgage?
Q14d	Q14d. How afraid are you of the following: Being unemployed?
Q14e	Q14e. How afraid are you of the following: High medical bills?
Q14f	Q14f. How afraid are you of the following: Catching influenza (the seasonal flu)?
Q14g	Q14g. How afraid are you of the following: Catching the coronavirus (COVID-19)?
Q14h	Q14h. How afraid are you of the following: Being caught in an embarrassing moment on Zoom or video conference?
Q15a	Q15a. How afraid are you of the following: Computers replacing people in the workforce?
Q15b	Q15b. How afraid are you of the following: Technology that I don't understand?
Q15c	Q15c. How afraid are you of the following: Cyber-terrorism?
Q15d	Q15d. How afraid are you of the following: Corporate tracking of personal data?
Q15e	Q15e. How afraid are you of the following: Government tracking of personal data?
Q16a	Q16a. How afraid are you of the following events: A devastating earthquake?
Q16b	Q16b. How afraid are you of the following events: A devastating hurricane?
Q16c	Q16c. How afraid are you of the following events: A devastating tornado?
Q16d	Q16d. How afraid are you of the following events: A devastating flood?
Q16e	Q16e. How afraid are you of the following events: A devastating blizzard/Winter storm?
Q16f	Q16f. How afraid are you of the following events: A devastating drought?
Q16g	Q16g. How afraid are you of the following events: A devastating wildfire?
Q16h	Q16h. How afraid are you of the following events: A large volcanic eruption?
Q16i	Q16i. How afraid are you of the following events: The collapse of the electrical grid?
Q16j	Q16j. How afraid are you of the following events: A nuclear weapons attack?

Q16k	Q16k. How afraid are you of the following events: A nuclear accident/meltdown?
Q16l	Q16l. How afraid are you of the following events: Economic/financial collapse?
Q16m	Q16m. How afraid are you of the following events: A pandemic or a major epidemic?
Q16n	Q16n. How afraid are you of the following events: Widespread civil unrest?
Q16o	Q16o. How afraid are you of the following events: The US becoming involved in another world war?
Q16p	Q16p. How afraid are you of the following events: Whites no longer being the majority in the US?
Q16q	Q16q. How afraid are you of the following events: Illegal immigration?
Q16r	Q16r. How afraid are you of the following events: Biological warfare?
Q16s	Q16s. How afraid are you of the following events: A terrorist attack?
Q16t	Q16t. How afraid are you of the following events: North Korea using nuclear weapons?
Q16u	Q16u. How afraid are you of the following events: Iran using nuclear weapons?
Q17a	Q17a. How afraid are you of the following: Blood?
Q17b	Q17b. How afraid are you of the following: Needles?
Q17c	Q17c. How afraid are you of the following: Insects/arachnids (spiders, bees, etc.)?
Q17d	Q17d. How afraid are you of the following: Reptiles (snakes, lizards, etc.)?
Q17e	Q17e. How afraid are you of the following: Animals (dogs, rats, etc.)?
Q17f	Q17f. How afraid are you of the following: Sharks?
Q17g	Q17g. How afraid are you of the following: Clowns?
Q17h	Q17h. How afraid are you of the following: Germs?
Q17i	Q17i. How afraid are you of the following: Deep lakes and oceans?
Q17j	Q17j. How afraid are you of the following: Flying?
Q17k	Q17k. How afraid are you of the following: Ghosts?
Q17l	Q17l. How afraid are you of the following: Murder hornets?
Q17m	Q17m. How afraid are you of the following: Heights?
Q17n	Q17n. How afraid are you of the following: Public speaking?
Q17o	Q17o. How afraid are you of the following: Small, enclosed spaces?
Q17p	Q17p. How afraid are you of the following: Zombies?
Q17q	Q17q. How afraid are you of the following: Strangers?
Q17r	Q17r. How afraid are you of the following: Walking alone at night?
Q18a	Q18a. How afraid are you of being the victim of the following crimes: Mugging?
Q18b	Q18b. How afraid are you of being the victim of the following crimes: Stalking?
Q18c	Q18c. How afraid are you of being the victim of the following crimes: Murder by a stranger?
Q18d	Q18d. How afraid are you of being the victim of the following crimes: Murder by someone you know?
Q18e	Q18e. How afraid are you of being the victim of the following crimes: Being hit by a drunk driver?

Q18f	Q18f. How afraid are you of being the victim of the following crimes: Police brutality?
Q18g	Q18g. How afraid are you of being the victim of the following crimes: Sexual assault by a stranger?
Q18h	Q18h. How afraid are you of being the victim of the following crimes: Sexual assault by someone you know?
Q18i	Q18i. How afraid are you of being the victim of the following crimes: Racial/hate crime?
Q18j	Q18j. How afraid are you of being the victim of the following crimes: Random/mass shooting?
Q18k	Q18k. How afraid are you of being the victim of the following crimes: Break-ins?
Q18l	Q18l. How afraid are you of being the victim of the following crimes: Theft of property?
Q18m	Q18m. How afraid are you of being the victim of the following crimes: Gang violence?
Q18n	Q18n. How afraid are you of being the victim of the following crimes: Abduction/Kidnapping?
Q18o	Q18o. How afraid are you of being the victim of the following crimes: Identity theft?
Q18p	Q18p. How afraid are you of being the victim of the following crimes: Credit card fraud?
Q18q	Q18q. How afraid are you of being the victim of the following crimes: Financial fraud (such as a Ponzi Scheme, embezzlement, etc.)?
Q18r	Q18r. How afraid are you of being the victim of the following crimes: Terrorism?
Q19a	Q19a. How afraid are you of the following: Antifa?
Q19b	Q19b. How afraid are you of the following: White supremacists?
Q19c	Q19c. How afraid are you of the following: Black Lives Matter (BLM)?
Q19d	Q19d. How afraid are you of the following: The Proud Boys?
Q19e	Q19e. How afraid are you of the following: Immigrants?
Q19f	Q19f. How afraid are you of the following: Muslims?
Q19g	Q19g. How afraid are you of the following: Right wing extremists?
Q19h	Q19h. How afraid are you of the following: Left wing extremists?
Q20a	Q20a. Please indicate your level of agreement with the following statements. The government is concealing what it knows about.... Alien encounters?
Q20b	Q20b. Please indicate your level of agreement with the following statements. The government is concealing what it knows about.... The 9/11 attacks?
Q20c	Q20c. Please indicate your level of agreement with the following statements. The government is concealing what it knows about.... The South Dakota crash?
Q20d	Q20d. Please indicate your level of agreement with the following statements. The government is concealing what it knows about.... Global warming?
Q20e	Q20e. Please indicate your level of agreement with the following statements. The government is concealing what it knows about.... The JFK assassination?
Q20f	Q20f. Please indicate your level of agreement with the following statements. The government is concealing what it knows about.... The moon landing?

Q20g	Q20g. Please indicate your level of agreement with the following statements. The government is concealing what it knows about.... The Illuminati/New World Order?
Q20h	Q20h. Please indicate your level of agreement with the following statements. The government is concealing what it knows about.... Mass shootings such as those at Sandy Hook, Las Vegas, and Parkland?
Q20i	Q20i. Please indicate your level of agreement with the following statements. The government is concealing what it knows about.... Q'Anon?
Q21a	Q21a. How afraid are you of the following: Government use of drones within the U.S.?
Q21b	Q21b. How afraid are you of the following: Corrupt government officials?
Q21c	Q21c. How afraid are you of the following: Government restrictions on firearms and ammunition?
Q21d	Q21d. How afraid are you of the following: Government interference with the coronavirus (COVID-19) vaccine approval?
Q22a	Q22a. Please indicate your level of agreement with the following statements about immigration issues. Immigrants are more likely to commit crime than US citizens.
Q22b	Q22b. Please indicate your level of agreement with the following statements about immigration issues. Recent immigrants are more reluctant to assimilate than previous immigrants.
Q22c	Q22c. Please indicate your level of agreement with the following statements about immigration issues. Immigrants are a drain on the economy.
Q22d	Q22d. Please indicate your level of agreement with the following statements about immigration issues. Immigrants bring diseases into the US.
Q22e	Q22e. Please indicate your level of agreement with the following statements about immigration issues. Police should be allowed to raid businesses and homes in order to find undocumented workers.
Q22f	Q22f. Please indicate your level of agreement with the following statements about immigration issues. Deportation is a good solution for immigration issues.
Q22g	Q22g. Please indicate your level of agreement with the following statements about immigration issues. Creating a pathway to citizenship will encourage illegal immigration.
Q22h	Q22h. Please indicate your level of agreement with the following statements about immigration issues. America should cease all immigration from Muslim countries.
Q22i	Q22i. Please indicate your level of agreement with the following statements about immigration issues. America should build a wall on the border with Mexico.
Q23a	Q23a. Have you done any of the following because of your fears: Purchased a gun?
Q23b	Q23b. Have you done any of the following because of your fears: Voted for a particular party or candidate?
Q23c	Q23c. Have you done any of the following because of your fears: Installed an alarm system in your home?
Q23d	Q23d. Have you done any of the following because of your fears: Stockpiled toilet paper or other supplies?
Q23e	Q23e. Have you done any of the following because of your fears: Avoided public spaces, such as grocery stores or restaurants?
Q24	Q24. Have you had the coronavirus (COVID-19)?
Q25	Q25. Do you know someone personally who has had the coronavirus (COVID-19)?

Q26	Q26. Do you know someone personally who died or was hospitalized because of the coronavirus (COVID-19)?
Q27	Q27. Did you lose your job or were you laid off as a result of the coronavirus (COVID-19)?
Q28a	Q28a. How afraid are you of the following: Contracting the coronavirus (COVID-19)?
Q28b	Q28b. How afraid are you of the following: A loved one contracting the coronavirus (COVID-19)?
Q28c	Q28c. How afraid are you of the following: Losing your job due to the coronavirus (COVID-19) pandemic?
Q29a	Q29a. Please indicate your level of agreement with the following statements about the coronavirus (COVID-19). The government has gone too far in restricting businesses and individuals during the coronavirus (COVID-19) pandemic.
Q29b	Q29b. Please indicate your level of agreement with the following statements about the coronavirus (COVID-19). The benefits of wearing a mask outweigh the consequences of not wearing one.

## QUESTIONNAIRE

Q1. How religious do you consider yourself to be? *(Please select one.)*

- 1 Not at all religious
- 2 Not too religious
- 3 Somewhat religious
- 4 Very religious
- 99 Web Blank

Q2. How often do you attend religious services at a church, mosque, synagogue or other place of worship? *(Please select one.)*

- 1 Never
- 2 Only on special occasions (i.e. weddings, funerals, holidays)
- 3 Less than once a year
- 4 Once or twice a year
- 5 Several times a year
- 6 Once a month
- 7 2-3 times a month
- 8 Weekly
- 9 Several times a week
- 99 Web Blank

Q3. Which one statement comes closest to your personal beliefs about the Christian Bible? *(Please select one.)*

- 1 The Bible means exactly what it says. It should be taken literally, word-for-word, on all subjects.
- 2 The Bible is perfectly true, but it should not be taken literally, word-for-word. We must interpret its meaning.
- 3 The Bible contains some human error.
- 4 The Bible is an ancient book of history and legends.
- 5 I don't know
- 99 Web Blank

Q4. How would you describe yourself politically? *(Please select one.)*

- 1 Extremely Conservative
- 2 Conservative
- 3 Leaning Conservative
- 4 Moderate
- 5 Leaning Liberal
- 6 Liberal
- 7 Extremely Liberal
- 99 Web Blank

Q5. Do you think of yourself as Republican, Democrat or Independent? *(Please select one.)*

- 1 Strong Republican
- 2 Moderate Republican
- 3 Leaning Republican
- 4 Independent
- 5 Leaning Democrat
- 6 Moderate Democrat
- 7 Strong Democrat
- 99 Web Blank

**[PN: RANDOMIZE CODES 1-2]**

Q6. Who did you vote for in the 2020 Presidential election?

- 1 Donald Trump, the Republican nominee
- 2 Joseph Biden, the Democratic nominee
- 3 Someone else
- 4 Did not vote
- 99 Web Blank

## WEIGHTED DATA FREQUENCIES

### Q1. How religious do you consider yourself to be?

		Frequency	Percent	Valid Percent	Cumulative Percent
Valid	1 Not at all religious	201	19.4	19.4	19.4
	2 Not too religious	217	21.0	21.0	40.4
	3 Somewhat religious	441	42.6	42.6	83.0
	4 Very religious	176	17.0	17.0	100.0
	Total	1035	100.0	100.0	

### Q2. How often do you attend religious services at a church, mosque, synagogue or other place of worship?

		Frequency	Percent	Valid Percent	Cumulative Percent
Valid	1 Never	192	18.5	18.5	18.5
	2 Only on special occasions (i.e. weddings, funerals, holidays)	350	33.8	33.8	52.3
	3 Less than once a year	52	5.0	5.0	57.4
	4 Once or twice a year	57	5.5	5.5	62.9
	5 Several times a year	100	9.6	9.6	72.5
	6 Once a month	27	2.6	2.6	75.1
	7 2-3 times a month	41	4.0	4.0	79.1
	8 Weekly	196	19.0	19.0	98.0
	9 Several times a week	20	2.0	2.0	100.0
	Total	1035	100.0	100.0	

**Q3. Which one statement comes closest to your personal beliefs about the Christian Bible?**

		Frequency	Percent	Valid Percent	Cumulative Percent
Valid	1 The Bible means exactly what it says. It should be taken literally, word-for-word, on all subjects.	155	15.0	15.0	15.0
	2 The Bible is perfectly true, but it should not be taken literally, word-for-word. We must interpret its meaning.	324	31.3	31.3	46.3
	3 The Bible contains some human error.	144	13.9	13.9	60.2
	4 The Bible is an ancient book of history and legends.	282	27.2	27.2	87.4
	5 I don't know	130	12.6	12.6	100.0
	Total	1035	100.0	100.0	

**Q4. How would you describe yourself politically?**

		Frequency	Percent	Valid Percent	Cumulative Percent
Valid	1 Extremely Conservative	44	4.2	4.2	4.2
	2 Conservative	205	19.8	19.8	24.1
	3 Leaning Conservative	111	10.7	10.7	34.7
	4 Moderate	355	34.3	34.3	69.1
	5 Leaning Liberal	131	12.7	12.7	81.7
	6 Liberal	155	15.0	15.0	96.8
	7 Extremely Liberal	34	3.2	3.2	100.0
	Total	1035	100.0	100.0	

**Q5. Do you think of yourself as Republican, Democrat or Independent?**

		Frequency	Percent	Valid Percent	Cumulative Percent
Valid	1 Strong Republican	103	10.0	10.0	10.0
	2 Moderate Republican	144	13.9	13.9	23.8
	3 Leaning Republican	74	7.2	7.2	31.0
	4 Independent	340	32.8	32.8	63.8
	5 Leaning Democrat	81	7.9	7.9	71.7
	6 Moderate Democrat	160	15.5	15.5	87.2
	7 Strong Democrat	133	12.8	12.8	100.0
	Total	1035	100.0	100.0	

**Q6. Who did you vote for in the 2020 Presidential election?**

		Frequency	Percent	Valid Percent	Cumulative Percent
Valid	-1 Web Blank	0	.0	.0	.0
	1 Donald Trump, the Republican nominee	326	31.5	31.5	31.5
	2 Joseph Biden, the Democratic nominee	521	50.3	50.3	81.8
	3 Someone else	39	3.8	3.8	85.6
	4 Did not vote	149	14.4	14.4	100.0
Total	1035	100.0	100.0		

**Q9a. How often do you.... Read a local newspaper from your hometown (in print or the digital version)?**

		Frequency	Percent	Valid Percent	Cumulative Percent
Valid	-1 Web Blank	1	.1	.1	.1
	1 Every day	124	12.0	12.0	12.0
