METHODOLOGY REPORT:
AMERICAN FEARS SURVEY

Prepared for Chapman University

Prepared by:

Robyn Rapoport

Kyle Berta

AUGUST 2019

research. refined.

TABLE OF CONTENTS

OVERVIEW

Chapman University engaged SSRS to conduct the 2019 wave of The Chapman University Survey on American Fears (CSAF). Chapman University initiated this nationwide poll on what strikes fear in Americans in 2014. The primary objective of this survey is to collect annual data on the fears, worries and concerns of Americans, the personal, behavioral and attitudinal characteristics related to those fears, and how those fears are associated with other attitudes and behaviors.

The CSAF is a project of the Earl Babbie Research Center in the Wilkinson College of Arts, Humanities, and Social Sciences at Chapman University. The Earl Babbie Research Center is dedicated to using a variety of social science research methods to examine critical social, behavioral, economic and environmental problems.

CSAF was conducted online via the SSRS Probability Panel and invited adults age 18 and older to participate via the web. It included 1,219 participants and data collection was conducted from August 7 to 26, 2019.

This report provides information about the sampling procedures and the methods used to collect, process, and weight data for the 2019 wave of the CSAF.

SSRS PROFILE

SSRS is a full-service survey and market research firm managed by a core of dedicated professionals with advanced degrees in the social sciences. SSRS designs and implements research solutions for complex strategic, tactical, public opinion, and policy issues in the U.S. and in more than 40 countries worldwide. The SSRS team specializes in creative problem-solving and informed analysis to meet its clients' research goals. SSRS provides the complete set of analytical, administrative and management capabilities needed for successful project execution. We partner with clients interested in conducting high-quality research. In the industry, SSRS is renowned for its sophisticated sample designs and its experience with all facets of data collection, including those involving multimodal formats. SSRS also has extensive statistical and analytical capabilities for extracting important insights from the survey data and suggesting strategies based on those insights.

QUESTIONNAIRE DESIGN

Chapman University provided the survey instrument to SSRS. SSRS reviewed the survey instrument and provided feedback. Together, SSRS and the Chapman University team worked to finalize the questionnaire.

Upon final approval, SSRS formatted and programmed the survey for completion online. Additional steps were employed to ensure a quality experience in survey administration regardless of the device utilized by respondents, whether a desktop computer, tablet or phone.

SAMPLE DESIGN: THE SSRS PROBABILITY PANEL

The SSRS Probability Panel is a nationally representative probability-based web panel. Given that this is a probability-based web panel, findings are statistically projectable to the adult general population. SSRS Probability Panel members are recruited randomly from a dual-frame random digit dial (RDD) sample, through the SSRS Omnibus survey platform. The SSRS Omnibus survey is a nationally representative bilingual telephone survey designed to meet standards of quality associated with custom research studies. Each weekly wave of the SSRS Omnibus consists of 1,000 interviews, of which 700[1] are obtained with respondents on their cell phones, and approximately 35 interviews completed in Spanish.

Respondents of the SSRS Omnibus represent the full U.S. adult population (English- and Spanish-speaking). From this base, SSRS screens for Internet access and then recruits those who have Internet access[2] to be part of the SSRS Probability Panel.

DATA COLLECTION

Survey Sampling

All sample members drawn for the CSAF were adult, English-language panelists. Sample drawn for the CSAF was stratified by race, education, and age due to greater non-response by panelists who are non-white, have lower education or are younger.

Survey Administration Procedures

Surveys conducted using the SSRS Probability Panel are self-administered web surveys. In appreciation for their participation, panelists receive a modest incentive for participation (in the form of an electronic gift card). Depending on the field period, reminder emails are sent to panelists who do not complete the survey after being sent the initial invitation.

For the CSAF study, the survey administration schedule was as follows:

Touchpoint	Date
Soft launch invitation	8/7/2019
Full launch invitation	8/8/2019
Field Close	8/26/2019

---

[1] In June 2019 the OMNI distributions changed from N=600 to N=700 cell phone completes. For the population used in this survey recruited June 2019 and earlier, the distribution of OMNI completes would have been N=600 cell phone.
[2] According to a Pew Research Center report, approximately 90% of adults nationally have internet access: http://www.pewinternet.org/fact-sheet/internet-broadband/

A "soft launch" inviting a limited number of panelists to participate was conducted on August 7th. After checking soft launch data to ensure that all questionnaire content and skip patterns were correct additional sample was released to ensure the final sample was representative.

The median length[3] of the CSAF survey was 21 minutes.

Panelists were emailed an invitation to complete the CSAF survey online. The email for each respondent included a unique passcode-embedded link. In appreciation for their participation, panelists received a seven-dollar incentive (in the form of an electronic gift card). Selected respondents in underrepresented demographics not responding to their first invitation received a reminder email on August 12th. Additional sample in underrepresented demographics were sent invites on August 14th. Two additional rounds of reminders were then sent on August 19th and 21st to selected respondents in underrepresented demographics who had not yet completed the survey. Lastly, on August 22nd new sample in underrepresented demographics were sent invites.

As a standard of practice for Probability Panel surveys, quality checks were incorporated into the survey. For CSAF, these included asking respondents to select a specific response when viewing a list of items. Respondents who failed the quality checks employed were not included in the final data set.

As standard practice on web surveys, respondents were allowed to skip any question they did not wish to answer; however, high rates of non-response can be correlated with poor data quality. Notably, 99% of respondents answered 100% of all survey questions, with no one completing less than 95% of the entire questionnaire.

N Sampled for Survey	N Completed Survey	Final N After Quality Control Removals[4]
2,438	1,281	1,219

The final breakdown based on device used to complete the survey was as follows:

Device	N Completed Survey
Computer/Tablet	620
Smartphone	594
Uncategorized	5

---

[3] The mean length of the survey was 24 minutes and the modal length was 20 minutes.
[4] The N=62 cases were removed due failing two of three quality control questions that were embedded into the survey (N=60), speeding (i.e., surveys completed in less than 30% of the median LOI, N=1), and answering less than 90% of the survey questions (N=1).

RESPONSE RATE/COOPERATION RATE

Response rates are one method used to assess the quality of a survey, as they provide a measure of how successfully the survey obtained responses from the sample. The American Association of Public Opinion Research (AAPOR) has established standardized methods for calculating response rates (AAPOR, 2008). As noted previously, SSRS Panel members are recruited randomly from SSRS Omnibus. The Response Rate for SSRS Omnibus is typically 5%[5]. Of the Omnibus respondents who are invited to join the SSRS Probability Panel, approximately 21% agree to become part of the panel[6]. Typical cooperation (i.e., completion) rates obtained by the SSRS Probability Panel range from 50% - 60%. The CSAF survey cooperation rate is 53%. The overall response rate is therefore 5% x 21% x 53% = 1%.

DATA PROCESSING AND INTEGRATION

SSRS implemented several quality assurance procedures in data file preparation and processing. In addition to extensive testing of the web survey prior to the launching data collection, random data were generated to ensure that skip patterns were working correctly. After the soft launch, survey data were carefully checked for accuracy, completeness, and non-response to specific questions so that any issues could be identified and resolved prior to the full launch.

The data file programmer implemented a "data cleaning" procedure in which web survey skip patterns were created in order to ensure that all questions had the appropriate numbers of cases. This procedure involved a check of raw data by a program that consisted of instructions derived from the skip patterns designated on the questionnaire. The program confirmed that data were consistent with the definitions of codes and ranges and matched the appropriate bases of all questions. The CSAF survey included only four conditional questions requiring skip logic.

WEIGHTING

This study, using sample selected from the SSRS Opinion Panel, was weighted to provide nationally representative and projectable estimates of the U.S. adult population 18 years of age and older. The weighting process takes into account the recruitment of panelists through the SSRS Telephone Omnibus. In addition, a non-Internet propensity adjustment was applied to help model non-Internet households that are excluded from an online panel. Following application of these weighting adjustments, the sample was raked by key demographics.

---

[5] This is our average response rate currently (in 2019). The majority of the panel was recruited when response rates were higher (roughly 7-8%)
[6] This is the current panel agreement (in 2019). The majority of the panel was recruited when the agreement rate was higher, typically around 45%

Base Weight

The weighting begins with the application of the original Omnibus base weight (OBW) computed at the time of panel recruitment. This base weight follows standard procedures for computing base weights of overlapping dual-frame telephone surveys.

$$OBW = [PLL + PCP - (PLL \times PCP)]^{-1}$$

Where PLL is the probability that the respondent was sampled from the original landline frame and PCP is the probability that the respondent was sampled from the original cell frame. The sampling probabilities are a function of sample size, frame size, household composition and telephone use.

In addition to the base weight, a non-Internet Adjustment (NIA) was made to the data. For this adjustment, SSRS applies a propensity score to model non-Internet households so that estimates can be projectable to the full U.S. adult population and not just Internet users. Propensity scores were estimated by fitting a regression of the panel response status on a range of demographic and attitudinal covariates. Adjustments for each panel participant are then calculated as the reciprocal of the estimated response propensity found from the model.

The final base weight is the product of the Omnibus base weight and the non-Internet adjustment.

$$BW = OBW \times NIA$$

Raking

The final stage of weighting involved raking sample demographics to target population benchmarks. The data were weighted to marginal distributions of: sex, age, education, race/ethnicity, region, and civic engagement. The sex, age, education, race/ethnicity and region benchmarks were derived from 2018 Current Population Survey data. The civic engagement benchmarks were derived from September 2017 Current Population Survey (CPS) data. Weights were trimmed at the 2nd and 98th percentiles to prevent individual interviews from having too much influence on the final results.

Margin of Sampling Error

Specialized sampling designs and post-data collection statistical adjustments require analysis procedures that reflect departures from simple random sampling. SSRS calculates the effects of these design features so that an appropriate adjustment can be incorporated into tests of statistical significance when using these data. The so-called "design effect" or deff represents the loss in statistical efficiency that results from a complex sample designs and systematic non-response. SSRS calculates the composite design effect for a sample of size n, with each case having a weight, w, as:

$$deff = \frac{n \sum w^2}{(\sum w)^2}$$

The design effect for this survey was 1.86 overall.

The survey's margin of error is the largest 95% confidence interval for any estimated proportion based on the total sample -- one around 50%. For example, the margin of error for the total sample is ±3.8 percentage points. This means that in 95 out every 100 samples using the same methodology, estimated proportions based on the entire sample will be no more than 3.8 percentage points away from their true values in the population. It is important to remember that sampling fluctuations are only one possible source of error in a survey estimate. Other sources, such as measurement error, may contribute additional error of greater or lesser magnitude.

DELIVERABLES

Final deliverables for this study were a weighted SPSS file, final formatted questionnaire, and Methodology report.

For the final datafile, please note that when a respondent elected to skip a question they were coded as "-1: Web blank." A codebook is provided below.

DATAFILE VARIABLES AND CODEBOOK

The following shows the name and description of each data variable and associated response categories provided in the SPSS file.

For all demographic data, aside from INCOME, only sample-based data was used.

Variable Name	Variable Description
id	Case ID
qn1	1. How religious do you consider yourself to be?
qn2	2. How often do you attend religious services at a church, mosque, synagogue or other place of worship?
qn3	3. Which one statement comes closest to your personal beliefs about the Christian Bible?
qn4	4. Which of the following comes CLOSEST to your beliefs about God?
qn5a	5a. Please indicate your level of agreement with the following statements: I believe God is a 'He.'
qn5b	5b. Please indicate your level of agreement with the following statements: God favors the United States in global affairs
qn5c	5c. Please indicate your level of agreement with the following statements: The success of the United States is part of God's plan
qn5d	5d. Please indicate your level of agreement with the following statements: God punishes sinners for doing wrong
qn5e	5e. Please indicate your level of agreement with the following statements: There is evil in the world
qn5f	5f. Please indicate your level of agreement with the following statements: I believe the Devil/Satan exists
qn5g	5g. Please indicate your level of agreement with the following statements: Satan causes most evil in the world
qn5h	5h. Please indicate your level of agreement with the following statements: The world today is completely evil
qn6	6. Which of the following statements comes CLOSEST to your views?
qn7a	7a. Please indicate your level of agreement with the following statements: The federal government should declare the United States a Christian nation
qn7b	7b. Please indicate your level of agreement with the following statements: The federal government should advocate Christian values
qn7c	7c. Please indicate your level of agreement with the following statements: The federal government should enforce strict separation of church and state
qn7d	7d. Please indicate your level of agreement with the following statements: The federal government should allow the display of religious symbols in public spaces
qn7e	7e. Please indicate your level of agreement with the following statements: The federal government should allow prayer in public schools
qn8	8. How important do you think being a Christian is to being truly American?
qn9	9. How would you describe yourself politically?
qn10	10. Do you think of yourself as Republican, Democrat or Independent?
qn11	11. How likely are you to vote in the 2020 Presidential election
qn12	12. If the presidential election were held today, for whom would you vote?

qn13a	13a. How often do you... Watch the local TV news to learn about your area?
qn13b	13b. How often do you... Listen to a talk radio show that discusses politics?
qn13c	13c. How often do you... Read online news websites (such as Yahoo News or Google)?
qn13d	13d. How often do you... Get news from social media (e.g., Twitter, Facebook)?
qn13e	13e. How often do you... Watch daytime talk shows such as The Ellen DeGeneres Show or The View?
qn14a	14a. How afraid are you of the following? Becoming seriously ill
qn14b	14b. How afraid are you of the following? People I love becoming seriously ill
qn14c	14c. How afraid are you of the following? Dying
qn14d	14d. How afraid are you of the following? People I love dying
qn15a	15a. How many days during the past 30 days would you say... (Just your best estimate is fine) Your physical health was not good
qn15b	15b. How many days during the past 30 days would you say... (Just your best estimate is fine) Your mental health was not good
qn15c	15c. How many days during the past 30 days would you say... (Just your best estimate is fine) Physical pain made it difficult to perform usual activities
qn15d	15d. How many days during the past 30 days would you say... (Just your best estimate is fine) You felt sad, blue, or depressed
qn15e	15e. How many days during the past 30 days would you say... (Just your best estimate is fine) You felt very healthy and full of energy
qn16a	16a. How afraid are you of the following environmental issues? Air pollution
qn16b	16b. How afraid are you of the following environmental issues? Pollution of drinking water
qn16c	16c. How afraid are you of the following environmental issues? Pollution of oceans, rivers and lakes
qn16d	16d. How afraid are you of the following environmental issues? Extinction of plant and animal species
qn16e	16e. How afraid are you of the following environmental issues? Oil spills
qn16f	16f. How afraid are you of the following environmental issues? Global warming and climate change
qn17a	17a. How afraid are you of the following? Not having enough money for the future
qn17b	17b. How afraid are you of the following? Not being able to pay off college debt, now or in the future, whether it be yours, a child's or a partner's
qn17c	17c. How afraid are you of the following? Not having enough money to pay my rent and/or mortgage
qn17d	17d. How afraid are you of the following? Being unemployed
qn17e	17e. How afraid are you of the following? High medical bills
qn17f	17f. How afraid are you of the following? Catching influenza (the seasonal flu)
qn17g	17g. How afraid are you of the following? Losing my data, photos or important documents in a disaster
qn17h	17h. How afraid are you of the following? The outcome of the 2020 election
qn18	18. Have you or anyone in your household put together a disaster or emergency supply kit, containing supplies such as food, water and medical supplies?
qn19	19. Have you or anyone in your household put together a plan for what you would do in a natural disaster or emergency such as a fire in your home?

qn20	20. Have you or anyone in your household put together a plan for what you would do with your pet(s) in a natural disaster or emergency such as a fire in your home?
qn21a	21a. Please indicate your level of agreement with the following statements: By keeping an emergency supply kit, I am improving my chance of surviving a natural or manmade disaster
qn21b	21b. Please indicate your level of agreement with the following statements: I will experience a significant natural or manmade disaster in the near future
qn21c	21c. Please indicate your level of agreement with the following statements: I sometimes feel guilty that I have not done enough to prepare for disasters
qn21d	21d. Please indicate your level of agreement with the following statements: I feel confident that I know how to prepare for disasters
qn21e	21e. Please indicate your level of agreement with the following statements: Natural disasters in my area are capable of doing serious harm to me or my property
qn21f	21f. Please indicate your level of agreement with the following statements: I have a disability or a health condition that might affect my ability to prepare for a disaster
qn21g	21g. Please indicate your level of agreement with the following statements: Someone in my household has a disability or a health condition that might affect their ability to prepare for a disaster
qn22a	22a. How afraid are you of the following? Computers replacing people in the workforce
qn22b	22b. How afraid are you of the following? Technology that I don't understand
qn22c	22c. How afraid are you of the following? Cyber-terrorism
qn22d	22d. How afraid are you of the following? Corporate tracking of personal data
qn22e	22e. How afraid are you of the following? Government tracking of personal data
qn23a	23a. How afraid are you of the following events? Devastating earthquake
qn23b	23b. How afraid are you of the following events? Devastating hurricane
qn23c	23c. How afraid are you of the following events? Devastating tornado
qn23d	23d. How afraid are you of the following events? Devastating flood
qn23e	23e. How afraid are you of the following events? Devastating blizzard/ Winter storm
qn23f	23f. How afraid are you of the following events? Devastating drought
qn23g	23g. How afraid are you of the following events? Devastating wildfire
qn23h	23h. How afraid are you of the following events? Large volcanic eruption
qn23i	23i. How afraid are you of the following events? The collapse of the electrical grid
qn23j	23j. How afraid are you of the following events? Nuclear weapons attack
qn23k	23k. How afraid are you of the following events? Nuclear accident/meltdown
qn23l	23l. How afraid are you of the following events? Economic/ financial collapse
qn23m	23m. How afraid are you of the following events? Pandemic or a major epidemic
qn23n	23n. How afraid are you of the following events? Widespread civil unrest
qn23o	23o. How afraid are you of the following events? The U.S will be involved in another world war
qn23p	23p. How afraid are you of the following events? Whites no longer being the majority in the U.S.
qn23q	23q. How afraid are you of the following events? Illegal immigration
qn23r	23r. How afraid are you of the following events? Biological warfare
qn23s	23s. How afraid are you of the following events? Terrorist attack
qn23t	23t. How afraid are you of the following events? North Korea using nuclear weapons
qn23u	23u. How afraid are you of the following events? Iran using nuclear weapons

qn24a	24a. How afraid are you of the following? Blood
qn24b	24b. How afraid are you of the following? Needles
qn24c	24c. How afraid are you of the following? Catching the flu from a flu vaccine
qn24d	24d. How afraid are you of the following? Harmful side effects from the flu vaccine
qn24e	24e. How afraid are you of the following? Insects/Arachnids (spiders, bees, etc.)
qn24f	24f. How afraid are you of the following? Reptiles (snakes, lizards, etc.)
qn24g	24g. How afraid are you of the following? Animals (dogs, rats, etc.)
qn24h	24h. How afraid are you of the following? Sharks
qn24i	24i. How afraid are you of the following? Clowns
qn24j	24j. How afraid are you of the following? Germs
qn24k	24k. How afraid are you of the following? Deep lakes and oceans
qn24l	24l. How afraid are you of the following? Flying
qn24m	24m. How afraid are you of the following? Ghosts
qn24n	24n. How afraid are you of the following? Heights
qn24o	24o. How afraid are you of the following? Public speaking
qn24p	24p. How afraid are you of the following? Small enclosed spaces
qn24q	24q. How afraid are you of the following? Zombies
qn24r	24r. How afraid are you of the following? Strangers
qn24s	24s. How afraid are you of the following? Walking alone at night
qn25a	25a. Please indicate your level of agreement with the following statements: Vaccines cause autism
qn25b	25b. Please indicate your level of agreement with the following statements: Negative side-effects from vaccines are very common
qn25c	25c. Please indicate your level of agreement with the following statements: Doctors and drug companies are not honest about the risks from vaccines
qn25d	25d. Please indicate your level of agreement with the following statements: People should have the right to decide whether to vaccinate their children
qn25e	25e. Please indicate your level of agreement with the following statements: Kids today are given too many vaccines
qn25f	25f. Please indicate your level of agreement with the following statements: Vaccines help protect children from serious diseases
qn25g	25g. Please indicate your level of agreement with the following statements: The benefits of vaccines are greater than the risks
qn26a	26a. Please indicate your level of agreement with the following statements: I think it is ok for Muslims to receive extra screening at the airport
qn26b	26b. Please indicate your level of agreement with the following statements: I would be comfortable with having a Mosque (a place of worship for Muslims) built in my neighborhood
qn26c	26c. Please indicate your level of agreement with the following statements: Muslims are more likely to engage in terrorist activity than non-Muslims
qn26d	26d. Please indicate your level of agreement with the following statements: Muslim values are at odds with American values and way of life
qn26e	26e. Please indicate your level of agreement with the following statements: I would have a problem with my child marrying a Muslim
qn27a	27a. How afraid are you of being the victim of the following crimes? Mugging
qn27b	27b. How afraid are you of being the victim of the following crimes? Stalking

qn27c	27c. How afraid are you of being the victim of the following crimes? Murder by a stranger
qn27d	27d. How afraid are you of being the victim of the following crimes? Murder by someone you know
qn27e	27e. How afraid are you of being the victim of the following crimes? Being hit by a drunk driver
qn27f	27f. How afraid are you of being the victim of the following crimes? Police brutality
qn27g	27g. How afraid are you of being the victim of the following crimes? Sexual assault by a stranger
qn27h	27h. How afraid are you of being the victim of the following crimes? Sexual assault by someone you know
qn27i	27i. How afraid are you of being the victim of the following crimes? Racial/Hate crime
qn27j	27j. How afraid are you of being the victim of the following crimes? Random/Mass shooting
qn27k	27k. How afraid are you of being the victim of the following crimes? Break-ins
qn27l	27l. How afraid are you of being the victim of the following crimes? Theft of property
qn27m	27m. How afraid are you of being the victim of the following crimes? Gang violence
qn27n	27n. How afraid are you of being the victim of the following crimes? Abduction/Kidnapping
qn27o	27o. How afraid are you of being the victim of the following crimes? Identity theft
qn27p	27p. How afraid are you of being the victim of the following crimes? Credit card fraud
qn27q	27q. How afraid are you of being the victim of the following crimes? Financial fraud (such as a Ponzi Scheme, embezzlement etc.)
qn27r	27r. How afraid are you of being the victim of the following crimes? Terrorism
qn28a	28a. The Government is concealing what it knows about... Alien encounters
qn28b	28b. The Government is concealing what it knows about... The 9/11 attacks
qn28c	28c. The Government is concealing what it knows about... The South Dakota crash
qn28d	28d. The Government is concealing what it knows about... Global warming
qn28e	28e. The Government is concealing what it knows about... The JFK assassination
qn28f	28f. The Government is concealing what it knows about... The moon landing
qn28g	28g. The Government is concealing what it knows about... The Illuminati/New World Order
qn28h	28h. The Government is concealing what it knows about... Mass shootings such as those at Sandy Hook, Las Vegas, and Parkland
qn29a	29a. Thinking of the Federal Government in Washington D.C., how afraid are you of the following? Government use of drones within the U.S.
qn29b	29b. Thinking of the Federal Government in Washington D.C., how afraid are you of the following? Corrupt government officials
qn29c	29c. Thinking of the Federal Government in Washington D.C., how afraid are you of the following? Government restrictions on firearms and ammunition
qn30a	30a. Please indicate your level of agreement with the following statements... Immigrants are more likely to commit crime than U.S. citizens
qn30b	30b. Please indicate your level of agreement with the following statements... Recent immigrants are more reluctant to assimilate than previous immigrants
qn30c	30c. Please indicate your level of agreement with the following statements... Immigrants are a drain on the economy

qn30d	30d. Please indicate your level of agreement with the following statements... Immigrants bring diseases into the United States
qn30e	30e. Please indicate your level of agreement with the following statements... Police should be allowed to raid businesses and homes in order to find undocumented workers
qn30f	30f. Please indicate your level of agreement with the following statements... Deportation is a good solution for immigration issues
qn30g	30g. Please indicate your level of agreement with the following statements... Creating a 'pathway to citizenship' will encourage illegal immigration
qn30h	30h. Please indicate your level of agreement with the following statements... America should cease all immigration from Muslim countries
qn30i	30i. Please indicate your level of agreement with the following statements... America should build a wall on the border with Mexico
qn31a	31a. How familiar are you with the following safety messages? Get inside, Stay Inside, Stay Tuned
qn31b	31b. How familiar are you with the following safety messages? Stop the Bleed
qn31c	31c. How familiar are you with the following safety messages? Drop, Cover, and Hold On
qn32a	32a. On a typical day, how many hours do you spend... Watching television
qn32b	32b. On a typical day, how many hours do you spend... Surfing the internet/visiting websites
qn32c	32c. On a typical day, how many hours do you spend... Using a cell phone
qn33a	33a. The next questions are about pornography, including adult websites, books, and magazines that show or describe sexual activities. Would you say that... Pornography provides useful information about sex
qn33b	33b. The next questions are about pornography, including adult websites, books, and magazines that show or describe sexual activities. Would you say that... Pornography leads to breakdown of morals
qn33c	33c. The next questions are about pornography, including adult websites, books, and magazines that show or describe sexual activities. Would you say that... Pornography leads people to commit rape
qn33d	33d. The next questions are about pornography, including adult websites, books, and magazines that show or describe sexual activities. Would you say that... Pornography provides an outlet for bottled-up impulses
qn34a	34a. Please indicate how often you think each of the following are WRONG... Abortion when the woman's health is at risk
qn34b	34b. Please indicate how often you think each of the following are WRONG... Abortion when the woman's health is NOT at risk
qn34c	34c. Please indicate how often you think each of the following are WRONG... Homosexuality
qn34d	34d. Please indicate how often you think each of the following are WRONG... Masturbation
qn34e	34e. Please indicate how often you think each of the following are WRONG... Poverty
qn34f	34f. Please indicate how often you think each of the following are WRONG... Affirmative action
qn34g	34g. Please indicate how often you think each of the following are WRONG... Illegal immigration

qn34h	34h. Please indicate how often you think each of the following are WRONG... Drug use
