Meridian Digital Telephones and Options

M2006
M2008/M2008HF
M2616
M2216ACD
M2016S Secure Set

Quick Reference Guide
Your Meridian Digital Telephone provides easy access to a wide range of business features. Your telephone system administrator assigns features to your feature keys, and provides you with passwords and other codes as required. One of the codes provided by the administrator is the Special Prefix Code (SPRE) which you need in order to use some features. For other features, the SPRE is optional.

There are three models of Meridian Digital Telephone. The M2006 has six feature keys, the M2008 has eight feature keys, and the M2008HF includes a built-in microphone. The M2616, shown below, has 16 feature keys and also includes a built-in microphone. The M2216ACD and M2016S Secure Set also have 16 feature keys. Many of the features described in this manual are also available on the M2616CT Cordless Telephone. Please refer to the documentation packaged with the M2616CT.

**Message Waiting Light**
The Message Waiting light turns on to indicate that a message has been left for you.

**LCD Indicator**
A steady ➩ means the feature or line is active. A flashing ➩ means the line is on hold or the feature is being programmed.

**Meridian Display Option**
The Meridian Display Option, with adjustable angle and contrast, shows you features, instructions, and incoming call information. It attaches to the M2008/M2008HF or M2616, and is standard on the M2216ACD.

**Release**
By pressing ☐, you can disconnect an active call. You may also hang up the handset. ☐ is especially useful for disconnecting handsfree calls.

**Hold**
By pressing ☐, you can put an active call on hold. Return to the caller by pressing the extension key beside the flashing ➩.

**Microphone**
A microphone is an integral part of the M2616 and M2008HF telephone, allowing you to have a telephone conversation without using the handset.

**Volume Bar**
Use ☐ to control the volume of the handset and the speaker. Raise the volume by pressing the right side of the bar. Lower it by pressing the left side.

**Feature keys**
You access telephone features and telephone lines with the feature keys. The keys are labeled for your convenience.

**Main Extension key/Primary Directory Number (DN) key**
By pressing the lower right-hand key (or lifting the handset), you can make a call on your primary line. The telephone may also have other line keys. (The M2006 only supports a single line key).
Auto Dial

lets you dial a specific telephone number by pressing a feature key.

To store an Auto Dial number:

1. Without lifting the handset, press Auto Dial. The associated LCD Indicator flashes.
2. Dial the number.
3. Press Auto Dial again.

To use Auto Dial:

1. Lift the handset or press a DN Key (see Note below).
2. Press Auto Dial. The stored number is dialed automatically.

To display the Auto Dial number:

1. Press Display.
2. Press Auto Dial. The number is displayed.

Note: A DN (Directory Number) Key is used to access a line on your telephone.

Placing a call on hold

Use the Hold feature to place a call on hold. An example of where hold would be useful would be to answer a call on a second line without disconnecting from your original call.

To place a call on hold:

Press Hold. The LCD indicator flashes beside the line on hold.

The caller may hear music if this is programmed on your system.

To retrieve a call on hold:

Press the DN Key beside the flashing LCD indicator.
Introducing your Meridian Digital Telephone

Transferring calls
Use the Transfer feature to redirect a call to a third party.

To transfer a call to another number:

1. Press Transfer. The other party is on hold and you hear dial tone. The LCD indicator lights steadily.

2. Dial the DN that you want to transfer the call to.

3. Press Transfer again, either when you hear ringing, or after you talk privately to the person you are transferring the call to.

The LCD indicator goes from steady to off.

For MSL-100 systems:

Press Transfer or Conference then press release to complete the transfer.

If the person you are calling is not available:

Press the DN Key beside the flashing LCD indicator. You will be reconnected with the call.

The LCD indicator goes from flashing to steady.
Introducing your Meridian Digital Telephone

Using Handsfree

If your telephone is a an M2616 or M2008HF model, you can use the built in microphone and speaker instead of the handset. At any time during a call, you can switch to the handset by picking it up. You can also mute your microphone so that the other party cannot hear you speaking.

To use Handsfree on a call:

1. Press **Handsfree Mute** or a DN Key* instead of picking up your handset.

   * For MSL-100 systems, **Handsfree Mute** must be pressed.

2. Press **Release** to end your call.

To mute a Handsfree call:

1. Press **Handsfree Mute**. The LCD indicator flashes.

2. Press **Handsfree Mute** again to return to the two-way conversation.

To switch from the handset to Handsfree:

1. Press **Handsfree Mute**.

2. **Replace the handset.**
Making calls quickly and easily

Conference

You can set up a conference call for up to three (or six) people, including yourself. Contact your telephone system administrator to find out the maximum number of persons you can join in a conference call on your system.

To set up a conference call:

1. While on a call, press Conference. The other party is on hold and you hear dial tone.

2. Dial the next number to add to the conference. When the call is answered, you may talk privately with the person before they join the conference.

3. Press Conference again to join all callers. If necessary, repeat the procedure to include up to six people in the conference.

If the person you are adding to the conference is not available:

Press the DN Key with the flashing ►.

Last Number Redial

Last Number Redial allows you to automatically redial the last number you dialed.

To use Last Number Redial:

1. Lift the handset.

2. Press Last Number Key.

or

• Press Primary DN Key twice.

For MSL-100 systems:

Press the Pound Sign Key twice.
**Ring Again**

If you receive a busy tone or the person does not answer when trying to reach someone in your office or private network, Ring Again automatically redials that number and lets you know when that person is free, or that the person has used his telephone.

To use Ring Again:

1. You dial a DN and receive a busy tone or no answer. Press **Ring Again**.
2. **Replace the handset** or press **Release**.
   
   When the number you want to reach is free, or the person has re-used his set, you hear the Ring Again signal.
3. **Lift the handset** or press a **DN Key**.
4. Press **Ring Again** to automatically redial the number.

To cancel Ring Again:

Press **Ring Again**.

---

**Stored Number**

The Stored Number feature allows you to store a single telephone number that you can dial quickly. You can easily change the stored number.

To store a number when you're not on a call:

1. Without lifting the handset, press **Stored No**.
2. **Dial** the number.
3. Press **Stored No** again. Any number previously stored is replaced.

To store a number when you're on a call:

After you dial the number, press **Stored No**.
Making calls quickly and easily

To display the stored number:
1. Press Display.
2. Press Stored No. The number is displayed.

To call the stored number:
1. Lift the handset or press a DN Key.
2. Press Stored No.

Group Call
Group Call automatically calls members of a predefined group, one at a time, until they have all answered. Ask your system administrator for details on creating a conference call group. This feature is available on MSL-100 as “Preset Conference”.

To call group members:

1. Lift the handset or press a DN Key.
2. Press Group Call. The group members are called automatically. The LCD indicator beside the Group Call Key flashes until all members have answered.
3. When all members have answered, the LCD indicator stops flashing and remains on.

Group Listening
The group listening feature allows you to listen to a call through the speaker while speaking through the handset, thus allowing a third party(ies) to listen to both sides of the conversation. This feature is not available in all market regions or on MSL-100 systems. Check with your system administrator for availability and information on local laws governing the use of this feature.

To activate group listening:
While on a call, press the Group Listen Key.

To turn group listening off:
Press the Group Listen Key again or Replace the handset.
Handling Calls

Call Forward

Call Forward allows you to transfer all your calls so that they ring at another DN. You cannot forward calls while your telephone is ringing.

To forward all your calls:

1. Press Forward. The LCD indicator flashes.
2. Dial the DN that you want to forward your calls to.
3. Press Forward. The LCD indicator remains on.

To cancel Call Forward:

Press Forward. The LCD indicator turns off.

To reinstate Call Forward to the same number:

Press Forward twice. The LCD indicator turns on again.

To display the number to which you are currently forwarding your internal calls (on telephones equipped with an appropriate display):

1. Press Display.
2. Press Forward. The number is displayed.

You can forward calls to Meridian Mail by using the Meridian Mail DN as your Call Forward DN.

Call Waiting

If the attendant routes an outside call to you when you are already on a call, Call Waiting lets you put your current call on hold, allowing you to answer the outside call.
Handling Calls

To answer an incoming call during a telephone call:

1. Press **Hold** when you hear a tone and the call waiting indicator flashes during a telephone call.

   **Call Wait**

2. Press **Call Wait** to answer the incoming call.

   

To return to your first telephone call:

1. Press **Hold** if you want to put the second call on hold, or **Release** to end the second call.

   2637

2. Press the **DN** Key associated with the first call.

To answer an incoming call during a telephone call without the Call Waiting Key:

1. If you don’t have a **Call Wait** Key and you hear the Call Waiting tone, end your current call and **Replace the handset** or press **Release**.

   2637

2. When the telephone rings, press the **DN** Key beside the flashing LCD indicator to answer the incoming call.

Call Pickup

Using Call Pickup, you can answer a ringing telephone from any telephone in your Pickup Group or another Pickup Group.

To answer a ringing call in your own Call Pickup group:

1. Lift the handset or press a **DN** Key.

   **Call Pickup**

2. Press **Call Pickup**, or dial **SPRE + 3**.

To answer a ringing call in another Call Pickup group:

1. Lift the handset or press a **DN** Key.

   **Call Pickup**

2. Press **Call Pickup**, or dial **SPRE + 9 4**.
To answer a ringing call at a specific extension in any pickup group:

1. **Lift the handset** or press a **DN Key**.
2. Press **DN Pickup**, or dial **SPRE + 9 5**.
3. **Dial** the **DN** of the ringing telephone.

**Meridian Display Option**

The 2 line by 24 character display makes the most sophisticated features on your Meridian Digital Telephone easy to use. Screen prompts take you step by step through procedures and keep you informed on the status of various features such as Call Forward and Make Set Busy. Your display can be tilted forward or back to an angle that allows you to see it best.

Whether your display is factory installed or added on later, your top right function key will be designated as a **P** key. This key enters you into the programming mode, where you can make adjustments to various settings such as volume and display contrast. When you press the **P** key again to exit programming mode, you lock the settings until you reenter programming mode.

This section shows you how to use your **P** key. For complete feature explanations, refer to your Meridian Digital Telephone user guide.

**Programming**

When you first press **Program** to enter programming mode, you will see this screen. This is the first programming selection.

```
00 VOLUME ADJUSTMENT
SELECT OR SCROLL << < > > >
```

You can press **<<** or **>>** to scroll forward or back through the available selections. To make a selection, dial the number shown on the screen. Make the changes and press **Program** a second time to save them and exit programming mode.

**Note:** After any programming procedure press **Program** to exit and save the new setting.
Meridian Display Option

Volume Adjustment
Press [Program] and dial 0 0.

Dial 1 to adjust Ringer Volume
Dial 2 to adjust Buzzer Volume
Dial 3 to adjust Speaker Volume
Dial 4 to adjust Handset Volume
Dial 5 to adjust Handsfree Volume (If you telephone has Handsfree activated)

Use <-> to increase or decrease the volume for the selection you have made.
Press [Program] to save and exit programming mode.

Predial Recall
Press [Program] and dial 0 1.

The most recently predialed number appears. Press [Program] to exit. You can edit
the number using <-> and the dial pad or dial the number by pressing a free
line key.

Contrast Adjustment
Press [Program] and dial 0 2.

Use <-> to increase or decrease the contrast. Press [Program] to save and exit
programming mode.
Call Timer Enable
Press Program and dial 03.

CALL TIMER ON

Use << >> to choose between Call Timer On and Call Timer Off. Press Program to save and exit programming mode.

Idle Screen Format
Press Program and dial 04.

18 SEP 4:45 P

IDLE FORMAT

Use << >> to scroll through the eight possible selections. When you find the Idle Screen you want to select, press Program to save and exit programming mode.

Language Selection
Press Program and dial 05.

01 ENGLISH

Use << >> to scroll through the available selections. Dial the two digit number which corresponds to your language of choice, and press Program to save and exit programming mode.

Key Click
Press Program and dial 09.

KEY CLICK ON

Use << >> to choose between Key Click On and Key Click Off. Press Program to save and exit programming mode.
Agent Features

Log in

1. Plug in the headset.

2. Press In-Calls.

3. If using Agent ID, dial your ID number.

4. Press In-Calls when ready to start work, or Not Ready if you are not yet ready to take calls.
**Agent Features**

**Log Out**
1. Press **Make Busy**.
2. Unplug the headset.

**Answer ACD Calls**
Press **In-Calls**.

**Emergency**
Press **Emergency** during a call in progress to connect your supervisor to an urgent or abusive call.

**End ACD Calls**
Press **Release, In-Calls** (if using Call Forcing); wait for the other party to hang up; press **Not Ready**; or press a DN Key.

**Headset**
1. Press **Program** and Dial 1 0.
2. To select headset:
   - Dial 1 for Plantronics, VXI
   - Dial 2 for GN Netcom, Liberation
   - Dial 3 for handset.
3. Press **Program** to exit and save changes.

*Note:* Nortel Networks recommends setting 3 for all applications. Headsets vary in electrical, physical and audio characteristics. Performance perception is subjective; so, it is recommended that the headset user try using their headset with each of the three settings on both internal and external calls to determine which works best for them. As with all Meridian Digital Telephones, amplified headsets are recommended.
Agent Features

Hold

Press Hold. To take a call off Hold, press the key beside the fast flashing indicator.

Make Busy

Press Make Busy to make your phone appear busy to callers. If you are using ACD Agent ID, this will log you out of the system.

Not Ready

Press Not Ready. Press In-Calls or Not Ready when ready to accept ACD calls again.

For MSL-100 systems:

Press Not Ready. Enter the 3 digit reason code, if required, for walkaway. Press Not Ready again to receive calls.

Answer Supervisor

Press Supervisor when the LCD indicator flashes. If you’re on a call, press Hold before pressing Supervisor.

Call Supervisor

Press Supervisor. This automatically puts an active ACD call on Hold. Press In-Calls to return to your ACD call.

Conference with Supervisor

1. Press Supervisor during a call in progress.
2. Press Supervisor again when the supervisor answers.
Transfer to Supervisor

1. Press Supervisor during a call in progress.
2. Press Supervisor again when the supervisor answers.
3. Press Release to disconnect from the call.

Walkaway

1. Press Hold during an ACD call in progress or press Not Ready if not on a call.
2. Unplug the headset.

To return:

1. Plug in the headset.
2. Press In-Calls to return to your held call, or press Not Ready to enter the queue from the Not Ready state.

Supervisor Features

Answer Agent

Press Answer Agent when the LCD indicator flashes.

Answer Emergency

When you hear a buzz and the Answer Emergency indicator flashes:
1. Press Hold if you are on a call.
2. Press Answer Emergency.

Call Agent

1. Press Call Agent.
2. Dial the agent’s position ID, or press Agent.
Supervisor Features

Call Waiting Indicator

1. Off - few or no calls waiting.
2. On - an acceptable number of calls waiting.
3. Slow flashing - calls are backing up in the queue. Queue not accepting overflow calls.
4. Fast flashing - queue is overloaded. New calls overflow to another queue.

Display Agent Status

1. Press **Display Agent**. The first three digits tell the number of agent positions that are busy on ACD calls (ACD). The second three digits tell the number of ACD positions waiting for ACD calls (WAIT). The next three digits tell the number of ACD agents busy on non-ACD calls (DN). The final three digits show the number of vacant agent positions (LOGOUT).
2. Press **Release** to clear the display.

Display Queue Status

1. Press **Display Queue**. The first three digits tell the number of calls waiting to be answered (WAITING). The second three digits tell the number of agent or supervisor positions that are logged in (MAND). The next three digits tell the number of seconds the first call in the queue has been waiting (LWAIT). The final three digits show the number of calls that have Time Overload (TOFQ).
2. Press **Release** to clear the display.
Supervisor Features

**Headset Talk/Listen**

1. Press **Program** and **Dial** 0 8
2. Use the **Volume Bar** to toggle between Listen Only and Talk & Listen
3. Press **Program** to exit and save changes.

**Hold**

Press **Hold**. To take a call off Hold, press the key beside the fast flashing indicator.

**Observe Agents**

1. Press **Observe**.
2. **Dial** the agent’s position ID, or press **Agent**.
3. Repeat Step 2 to Observe another Agent.
4. Press **Release** to leave the Observe state.
Meridian Communications Adapter

AT dialing commands

AT dialing commands are similar to those used to make data calls using a Hayes Smartmodem®. AT dialing is not case sensitive. Commands not found here do not apply to using the Meridian Communications Adapter, and are not supported.

To use AT dialing: CTRL - z
      AT<CR>

AT - Answer (answer incoming data call)

ATDnnn - Dial (n= 0 - 9, numbers to be dialed)

A/ - Repeat last command (no <CR> needed)

ATO - On-line (hit three Escape characters rapidly to go off line)

ATDPnnnn - Voice Call (n= 0 - 9, * and #, numbers to dial)

ATF3 - Handsfree Mute (toggle between mute and normal)

ATF4 - Hold (put Voice Call on hold)

ATF5 - Select (take Voice Call off hold)

ATH0 - Hang up Data Call

ATHP - Hang up Voice Call

ATIn - Product ID code (n= 0, 1, 4; if n= 0 then send Smartmodem ID; if n= 1 then send result code “206;” if n= 4 then send result codes “a037800c004420” and “b100000000”)
<table>

**Note:** You must follow each command (except A/) by a carriage return <CR> to execute the command.
Keypad Dialing commands

Keypad dialing refers to the commands you can invoke from your telephone’s keypad. The top right-hand function key on your telephone is called the Program key or P-key.

To use keypad dialing:
1. Press [Program].
2. Dial the command number listed below. Follow the screen prompts for additional command parameters (if needed).
