

Night of the Broken Glass and Broken Hearts

Survivor Testimony: Irma Meyer

My piece, "Night of the Broken Glass and Broken Hearts," was inspired by the powerful testimony of Irma Meyer. My goal is to depict the face of a heartbroken Jewish girl looking over the destruction of Kristallnacht. Her reflection in the broken mirror represents the sadness many Jews felt as they saw their hopes and dreams shatter before their eyes. This is a story that should be remembered and shared to honor the innocent lives that were lost, prevent genocide in the future, and teach the world the valuable lesson of loving one another.
