It will display the term transferred, name and number of the course on the left and the equivalent course title and number on the right. If you recently requested transcripts, they may not yet be reflected:

- “Notes” and “Rqmt Designation” columns include information provided by the Registrar, such as any GE categories the course satisfies or referrals to a major/minor department for course review and/or approval.

- If a course in the “Equivalent Course” column displays “100TR”, “200TR” or “300TR”, it is not equivalent to a specific course at Chapman and was transferred in as elective credit.
- Any questions about major/minor course approvals should be directed to the specific department.
- Any course that displays “TR000” is not transferable for credit.
- Note that transfer work with grades earned below “C-” are not transferrable.

If you have taken a course at a community college that shares the course title of an upper division course at Chapman, it will not be accepted as equivalent to a major/minor course requirement. In almost all cases, it will only transfer to Chapman as “elective credit”. The earned credits will be counted towards the 120 total credits required for graduation.

If you have submitted an unofficial transcript for a course currently in progress, this course will be included in the Transfer Credit Report as well. "TI" will be listed in the "Grade" column which means that it is a transfer course in progress. Once the official transcript is received, "TI" will be replaced with the final grade. TI means "Transfer in progress".
