II. Chair's Report
   a. Diversity & equity at a university takes time to attain
      - Because of this, I would like the committee to focus on strengthening the institutions we have on campus, and look for areas we can tackle & improve
   b. My vision for the committee
      - I plan on attending as many Diversity groups on campus every week. The goal is that, through attending these meetings, I can bring potential issues to my committee to address
      - I also will be the go-to resource for the committee. If anyone has any questions, issues, ideas, etc., they should go straight to me so that I can help out in any way that I can

III. Open Forum
   a. Potential ideas to address as a committee
      - Lord Ryan brought up the idea about a space that already exists on campus as a potential Multi-Cultural area.
      - Lord Ryan talked about using the TVs in the Student Union to advertise events and meeting times for diversity organizations on campus.
