CHAPMAN UNIVERSITY STUDENT GOVERNMENT ASSOCIATION:
RESOLUTION REQUESTING
ADMINISTRATIVE ACTION
ON THE MATTER OF PANTHER ALERT

At a regularly scheduled meeting of the Student Government Association Senate, held on March 7, 2013 the following resolution was adopted:

WHEREAS, the safety of Chapman University students is important to the administration as well as the students themselves.

WHEREAS, with recent events across the country and in the surrounding area, the safety of students in an educational and living environment has become an important concern.

WHEREAS, Chapman University has an immediate danger alert system called Panther Alert which sends text message alerts to students, faculty, staff, administration, and parents; however, this alert system is not mandatory and has low levels of participation.

WHEREAS, The Student Government Association believes that students should be mandated to sign up for Public Safety's cell phone alert service, Panther Alert, in order to inform students of on-campus and local emergencies via cell phone.

WHEREAS, The Student Government Association requests that the University Administration work with elected student representatives to determine an appropriate way for the University to enlist all students with cell phones under this service.

NOW, THEREFORE, BE IT RESOLVED that Administration works with Public Safety and the Student Government Association in order to require students to sign-up for the Panther Alert emergency system.

Myke Thompson
Speaker of Senate
